⑩x5

⑪x5

⑫x1

- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

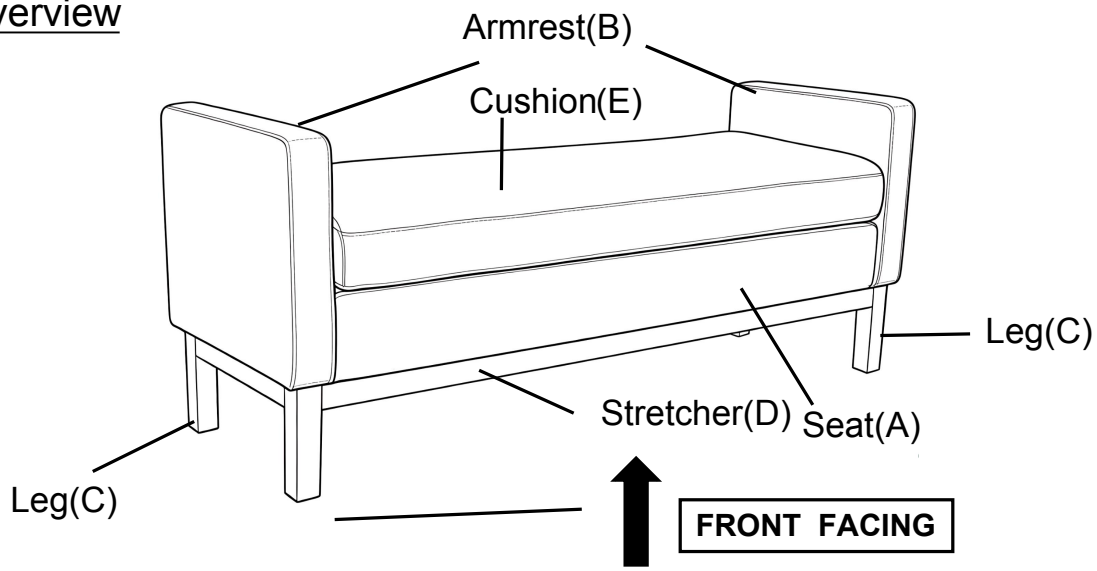

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

Assembly Steps

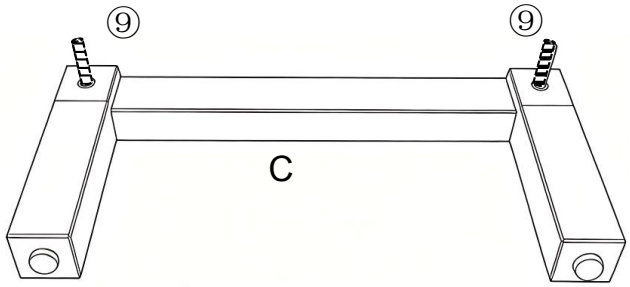

Overview

This ottoman has multiple parts and may require up to some 20 minutes to assemble. To give you an overview of the ottoman parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

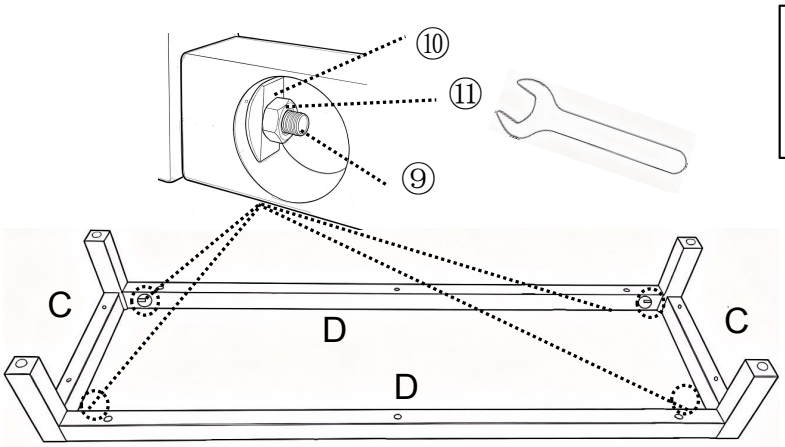

⑨X4

Place the leg (C) on a soft, clean surface, then screw in the double-end threaded studs(⑨)

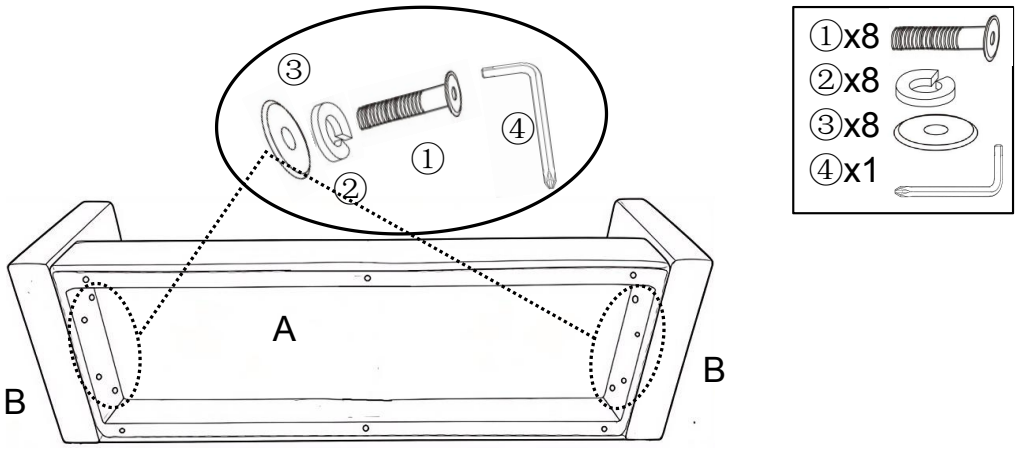

Step 2

⑩X4
⑪X4
⑫X1

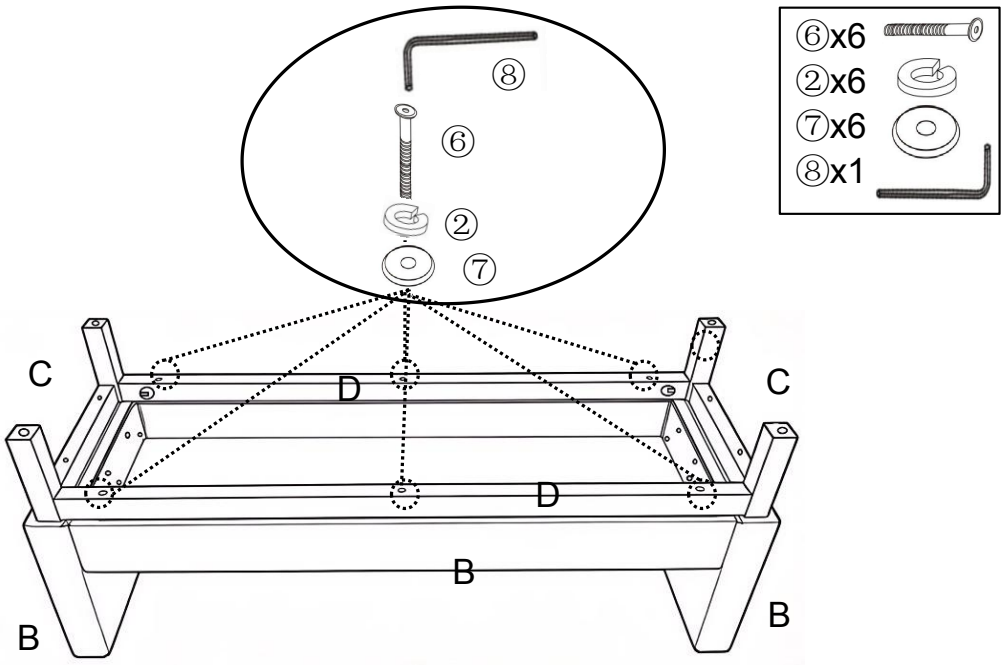

Insert stud (⑨) from assembled leg (C) into stretcher(D) holes, then tighten crescent clamp (⑩) & hex nut (⑪) using open-end wrench (⑫).

Step 3

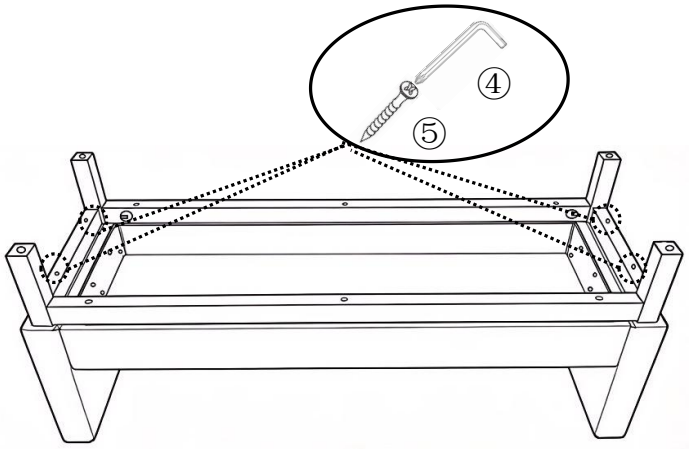

Lay seat (A) sideways on soft clean surfaces, fit armrests (B) on two sides with holes aligned, then fasten bolts (①), spring washers (②), flat washers (③) via L-Shaped Hex Wrench (④).

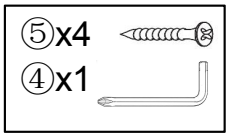

Step 4

Turn the ottoman pre-assembled in Step 3 upside down on a soft, clean surface. Place the connecting stretcher (D) assembled in Step 2 on top, aligning it with the six mounting holes. Then tighten bolts (⑥), spring washers (②) and flat washers (⑦) using an Allen wrench (⑧).

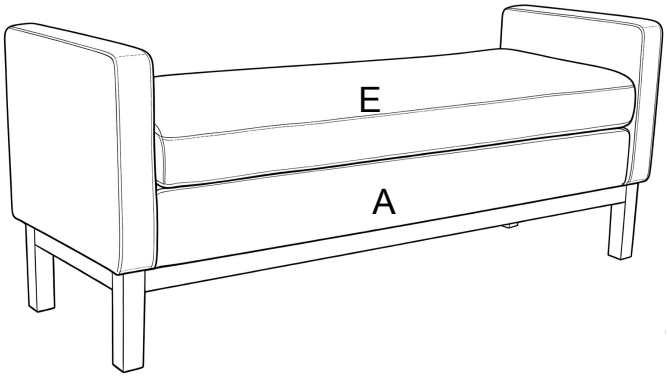

Step 5

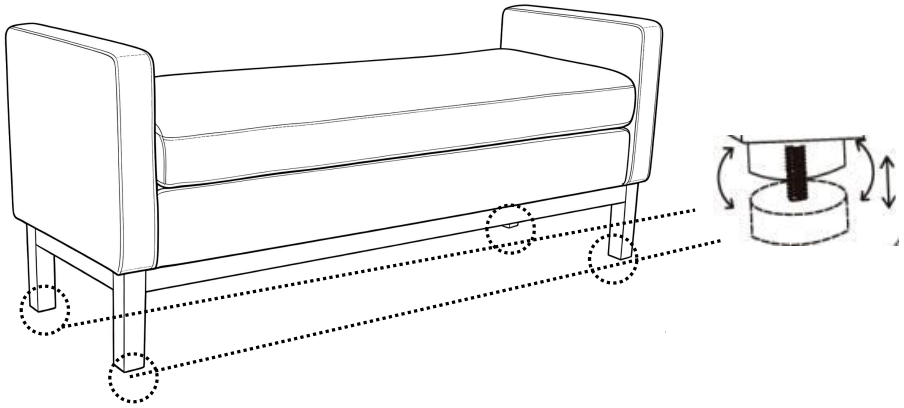

Place screws (⑤) in position and tighten them with an L-Shaped Hex Wrench (④).

Step 6

Place cushion (E) on top of the seat (A).

Step 7

Place the assembled ottoman on a level surface. If the ottoman is unstable, you can level it by rotating the adjustable feet beneath the legs. Your ottoman is ready for use.
This ottoman should only be used on flat, level surfaces.

Questions & Answers about Proposition 65

• What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.• What types of chemicals are on the Proposition 65 list?The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

• What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.• Where can I get more information on Proposition 65?If you have specific questions on the administration or implementation of Proposition 65, you can contact OEHHA's Proposition 65 program at P65.Questions@oehha.ca.gov, or by phone at (916) 445-6900.
