MAINTENANCE

Our iron/steel components for products are coated with rust inhibiting paint that protects it from rusting. However, due to the nature of iron, surface oxidation (rusting) will occur once these protective coatings are scratched. This is a natural process and is not a defect! To minimize this condition, we recommend care when assembling & handling the product to prevent scratching the paint.

ATTENTION

1. Keep all children and pets away from assembly area. Children and pets should be supervised when they are in the area.
2. Some parts may contain sharp edges. Wear protective gloves if necessary during assembly.
3. When assembling and using this product, basic safety precautions should always be followed to reduce the risk of personal injury and damage to equipment. Please read all instructions before assembly and use.
4. Check all bolts for tightness before and during usage.
5. Please take time to read these instructions thoroughly and follow each step carefully for safe and easy operation. Keep this manual for future reference.
