

Installation & Assembly

1. Use the mounting screws to attach the mounting unit to the junction box

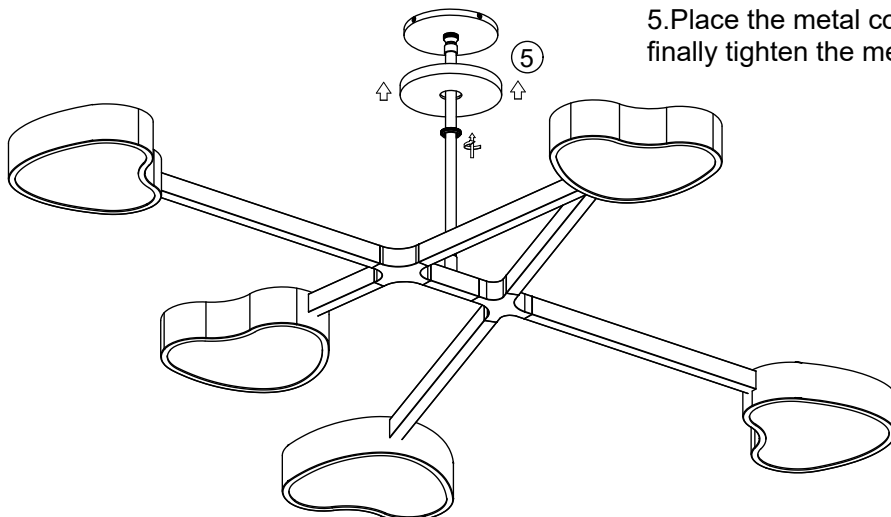

2. Insert the metal rod through the metal ring and metal cap, then screw the canopy onto the metal rod.

3. Make the electrical connection from the junction box to the fixture. Connect the ground wire to the mounting unit using the preinstalled green ground screw. Then, connect the positive, negative and ground wires with the supplied wire nuts. Secure with electrical tape

4. Place the canopy on the mounting unit and tighten it with side screws

5. Place the metal cover onto the canopy and finally tighten the metal ring.
