

READY. SET. PLAY.

QUICK START GUIDE

STEP
01

PREPARE THE SITE

Set up on a level surface clear of sand and sharp objects. Place the pool 10–21 feet from an outlet for filtration. Spread out the liner.

STEP
02

ASSEMBLE THE POOL

Assemble the pool frame and connect it to the liner. Ensure the liner is securely connected to the frame.

STEP
03

ADD 1 INCH OF WATER

Ensure the drain fitting is securely plugged and capped, then add about an inch of water. Stop filling and smooth out all wrinkles in the liner.

STEP
04

INSTALL THE PUMP

Install the filtration system as directed in the pump user guide. Keep filling the pool and follow the user guide for proper use, care, storage, and winterizing.
