

COLORPLAY FRAME EMERALD GREEN 4.5X18 3D CRACKLED GLOSSY CERAMIC TILE

Capture the warmth of a sundrenched, south-of-the-border holiday with our Colorplay Frame Emerald Green 4.5" x 18" ceramic tile. Crafted in Spain, this tile's deep green glaze washes over its surface, gently pooling between the raised lines of its frame-within-a-frame pattern for a handmade look and feel. Subtle crackle lines and a chiaroscuro effect enhance its character. This scaled-up subway-like tile is perfect for kitchen backsplashes, fireplaces, bathroom walls, and more.

COLORPLAY

Colorplay is an exceptional tile with an exquisite glaze. The finish is only the beginning. An uncommon reactive glaze adds depth to this collection's soft neutrals as well as its brilliant colorways. Relief patterns lend dimensionality to surfaces that love the light and the shadows. Scaled-up sizes are reminiscent of subway tiles, only grander. Use Colorplay for a paneling effect to create a statement wall anywhere in your home.
