

X-47ATR

PROFESSIONAL AXIAL FAN

LIVESTOCK VENTILATION SYSTEM. BUILT FOR HIGH PERFORMANCE

XPOWER X-47ATR Axial Fans are perfect for drying, cooling and temperature control. Keeping facilities comfortable for animals and employees, not only reduce energy costs but also increase productivity and growth. **XPOWER X-47ATR** is an efficient axial fan equipped with technology that surpasses other axial fans of its kind in the market, including a sealed motor design that helps our axial fans to become resist to dust and moisture, and durable ABS housing with injection molding technology that can endure harsh and continuous daily operation. At 2.8 amps draw, the **XPOWER X-47ATR Axial Fan** will efficiently provide the proper air circulation required to be successful in the greenhouse, livestock, and agricultural industries.

Why XPOWER products:

- Unit Comes Completely Assembled
- 18" Diameter Professional Axial Fan
- 1/3 HP Sealed Motor with Dual Thermal Protection
- Low 2.8 Amps Draw with Built-in Power Outlets to Connect Multiple Units
- Rack / Stand Included for Full 360 Degree Positioning Functionality
- Specially Designed Air Fin Technology for Extreme Focused Airflow
- Precise Airflow with Variable Speed Control Switch
- Set and Forget 3-hour Timer
- ETL / CETL Safety Certified
- OSHA Safety Compliance
