

User Manual

Brightness and color temperature support short press and long press adjustment.

Timer button: Short press to activate (the bulb flashes once). The lamp will turn off automatically after 1 hour. Long press is not valid. (Any change in bulb status during this period will not cancel the timer.)

Memory function: The bulb remembers the last setting before being turned off. For example, if it was set to night light before switching off, it will return to night light mode after power is restored.

Introduction

Dear Customer,

Thank you for choosing our floor lamp. This guide will help you install and use your new lamp correctly. Please read these instructions carefully before use and keep them for future reference.

Safety Instructions

Use the lamp only with the proper voltage.

To ensure a longer lifespan, do not install near heat sources, corrosive areas, or damp environments.

Do not use the lamp if the cord is worn or damaged.

Do not touch the cord with wet hands. Keep it dry.

Turn off the power before replacing the bulb.

Disconnect from power before cleaning.

Clean only with a soft cloth. Do not use solvents or cleaning agents.

Do not overload circuits—this may cause electric shock or fire.

Do not disassemble or repair the lamp yourself.

Warranty

This floor lamp comes with a 12-month warranty. For any issues, assistance, or support, please contact customer service with your order number and product model. We will provide further details regarding returns or exchanges.
