Assembly Steps

Overview

This Table has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Table parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Open the carton and place all the parts onto a clean, non-marring surface. Place the Table Top(A) facedown.

Step 2

Unfold the Table Leg (B) and align with pre-assembled studs on Table Top(A).

Step 3

Loosely tighten nuts (①) with the wrench (②), add Pads(③) onto the feet.
Do not fully tighten the Nuts.

Step 4

Place the Table on a LEVEL SURFACE to check for wobbles.
If it wobbles, apply steady and even pressure down on the Table Top.
This action should allow all of the gaps to reach full alignment status.
When the Table is level proceed to tighten all Nuts at all joints.
When tightening the Nuts, tighten sequentially.
DO NOT tighten any Nuts fully and then move on to the next one.
This could cause the frame to warp.
If the Table is not stable it could lead to damage to the product.

Step 5

Your Table is ready for use.
This Table can only be used on a flat, level surface.
