Cam Lock Assembly Instructions

Insert Cam Bolt into hole as shown in diagram A.

Make sure not to insert the Cam Bolt: Too deep as shown in figure B as this will cause the Cam Lock to be misaligned and unable to interlock properly.

Also avoid inserting the Cam Bolt too close to the surface of the hole as shown in figure C, as this will cause the Cam Lock to be too loose, and not interlock properly.

Connect the panels together.

Insert the Cam Lock so the side opening fits over the head of the Cam Bolt.

To tighten the Cam Lock, turn it clockwise on half a turn with a flat screwdriver.
