Measurement Details in the attached picture.

Features:

Made of high quality stainless steel which thickness is 0.8mm, safe to use.

Designed so that one ice pop can be removed (or re-filled) at a time.

Simply hold the mold in your hand for a moment, or run under warm water briefly, release quickly.

Fast freeze mold is easy to use, easy to clean, and will last you a life time.

Tips:

Please do not put too much into the mold to avoid spilling.

If it's too hard to pull out, place the mold upside down and flush with water.
