

BIRASIL

# Sandboxes

ASSEMBLY INSTRUCTION

Item Dimensions LxWxH: 48 x 48 x 48 inches

Material : Wood

Item No. : TSS-3278

Need help : [Birasil-service@outlook.com](mailto:Birasil-service@outlook.com)

# WARNING

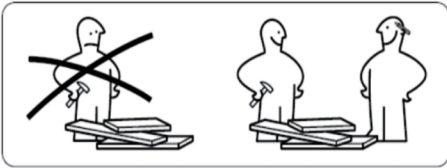

The Wood Sandbox is to be assembled by an adult.

It contains potentially hazardous sharp points and small parts in unassembled state, please keep out of reach of children.

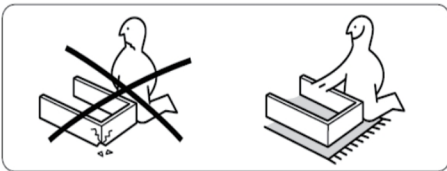

## ASSEMBLY TIPS, IT IS AS EASY AS 1,2,3

1. Please read the assembly instructions first and confirm the parts.

2. Proper assembly of this item requires 2 people.

3. Unpack and assemble this unit in an spacious area, assemble the unit on top of the empty, carton or carpet to prevent scratches.

4. To avoid accidentally discarding small parts or hardware, DO NOT dispose of any contents until assembly is completed.

5. Do not fully tighten all bolts until all parts are in place. Failure to follow these instructions may cause the bolts to misalign during assembly.

6. Sometimes new products come with a peculiar smell, but please rest assured to use it. Our products are all non-toxic, water-based paint and the smell will disappear after a few days.

7. Each of our boards has been tested and qualified before leaving the factory. The products has been stored for a period of time due to long-term transportation, therefore boards may a little deformed, which is normal. If you encounter such a situation, you just need to press them hard to install normally.

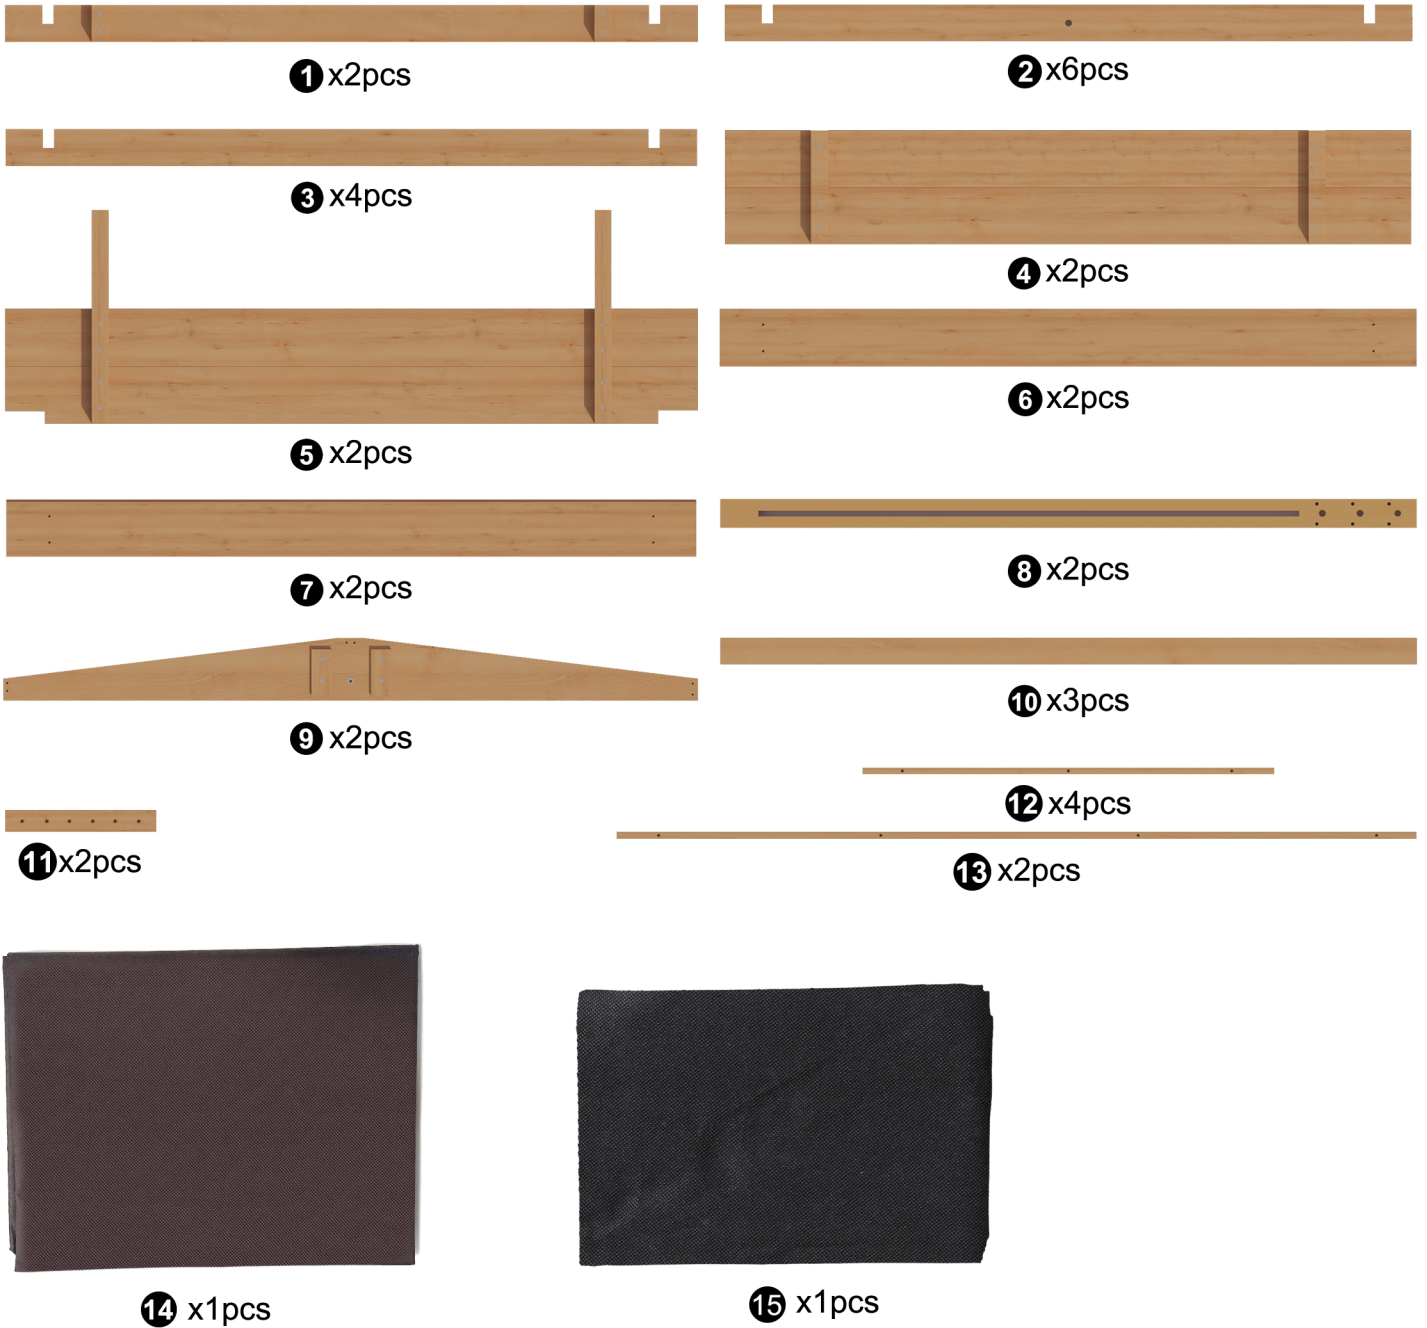

8. When the sandbox is not used for a long time, it is recommended to disassemble the sandbox and store it indoors to avoid long-term exposure to wind and sun, which may cause the color of the wood to fade, mold and rot, and the iron parts to rust. This will make it unusable next year.

9. Although we have dried all the wood pieces, we did not add any anti-mildew chemicals to the wood. It is recommended to place it in a dry and ventilated location when using it to avoid mold caused by a humid and stuffy environment.

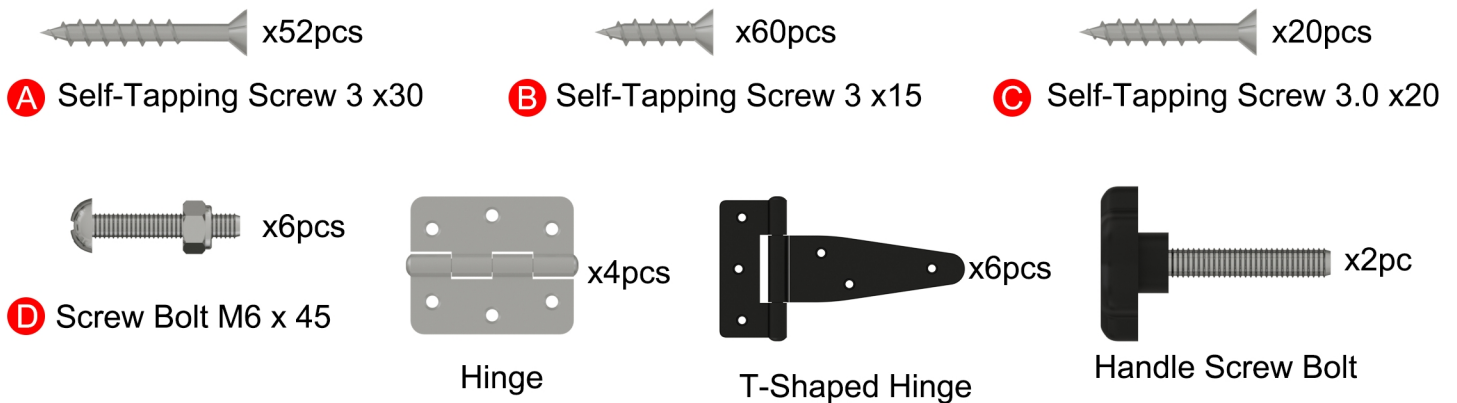

10. If there are crystals in the wood, this is naturally occurring in the fir wood. This is normal. Just wipe it clean and it can be used normally without affecting the health of your child.

11. If you have any problems or assembly difficulties, please feel free to
