

Cold Beverage Dispenser

RECTANGULAR TRITAN™ CONTAINER

The **CBDTSS Rectangular Cold Beverage Dispenser** includes 2 tubes: an infuser tube, for drink customization, and an ice tube, for cooling without diluting. The BPA free plastic container offers the appearance of glass and the durability of plastic. The stainless lid and base enhances any presentation and is perfect for high-end buffets and beverage stations. At only 8.25" wide, it offers great space savings as well. When the dispenser is not in use, all the parts break down and can be nested in the body for convenient storage.

STAINLESS DISPENSERS
