Application

This product can be installed on the roof crossbar luggage rack, platform luggage rack, roof tent, roof luggage box, roof luggage frame of SUVs, sedans, RVs, trucks, etc. It is used for washing activities such as surfing, beach travel, camping, off-road, fishing, tuple, hunting, and construction projects.

Notes

1. Please read the operating manual completely before use. And pay particular attention to the safety instructions included.

2. Before adding water to the water tank, please lift and pull the safety valve lever to release all pressure in the tank.
3. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before ordering.
