Note:

1. Do not lock one screw hole before screwing in other screws. Instead, align the four holes at the same time and then tighten them one by one. Otherwise, the subsequent holes may be misaligned.

2. The washer is not a necessary accessory for product assembly. It is only used to prevent the wooden frame from being scratched when the screws are screwed in. Whether it is installed or not does not affect the normal use of the product.

Installation Method

1 First insert the tenon on the wooden leg B into the hole of the armrest C.

2 First insert the tenon on the wooden leg B into the hole of the armrest C.

3 Install the armrests on both sides on the seat frame, align the screws in all holes first, and then tighten them all.
