

# Halo Floor Clock 615124

Make a statement with the Halo metal grandfather clock from Howard Miller. It combines a slender wood base with a modern metal dial and pendulum for contemporary style.

**Sturdy and Stylish:** This oversized grandfather clock has a base and column crafted from wood with a satin espresso finish. The top plate on the base is crafted from metal, as are the dial, hands, and pendulum. There are adjustable levelers beneath all four corners of this clock for stability on any surface.

**Aged Detailing:** The metal pieces on this timepiece have an aged silver finish for an antique look. This includes the Roman numerals and bar markers, along with the hour and minute hands. A red continuous sweep second hand adds a vibrant touch.

**Eye-Catching Pendulum:** This oversized grandfather clock has an aged silver pendulum bob, which travels through a cutout area in the wood case to add the element of movement.

**Quartz Movement:** Quartz movement requires one AA and two C batteries.

**Howard Miller:** Founded in 1926 and still family-owned in its third generation, Howard Miller is the world's leading clock company and a respected brand name in fine specialty furnishings such as curio cabinets, wine & bar furnishings, custom storage cabinets, and SmartMoves® adjustable height desks.
