assembly instructions

Friendly Tip: Take a deep breath going in. This may be a tricky part, but nothing too overwhelming. Just follow these steps to the T and the outcome will be worth it!

- ⓘ While assembling the product, tighten the bolts up to 50%. Once all parts are in place, only then fully tighten the bolts.

step 1:

Start by placing the cleat (B) on the wall you want to hang the night-stand (A) on. The cleat hangs with the angled side up and angle facing against the wall. Put a spirit level on it to ensure it is straight aligned with the wall. Adjust if needed. Now, mark points on the wall through the holes on the cleat using a pencil. Ensure that one of the marks comes in front of the stud.

Note: Wall plug is not needed at the location of the stud.

step 2:

Drill holes on the points you just marked.

step 3:

Using a hammer, Insert wall plugs (D) inside the holes on the drywall.

step 4:

Now take the french cleat (B) and fix it in place using screws. For drywall, insert screws (E) on the wall plugs. For stud walls, insert the screws (C). Use a screwdriver to make sure they are secure.

step 5:

Now, take the nightstand and place it on the french cleat. Make sure the slot on the nightstand is aligned with the cleat and not too close to the wall to prevent scratches and damage.

Voila! Your Nightstand is now installed and secure!

you've
got
a home
with us

A minimalist line drawing of a house, with the text 'you've got a home with us' integrated into its structure. The text is arranged in four lines: 'you've', 'got', 'a home', and 'with us'. The word 'with' is positioned to the left of 'us'. A vertical line on the right side of the text forms the right wall of the house, and a horizontal line at the bottom forms the base. A diagonal line at the top right forms the roof.
