

JZONC5-000100

Specification

Material: Aluminum Alloy, Stainless Steel

Color: Silver

Assembly Required: Yes

Mounting Type: Table Mount

Pellet Plate Holes Diameter: 1.5mm/0.06in

Hopper Size: 16.5*12.2*7.5cm/6.5*4.8*2.95in

Product Height: 28cm/11.02in

Caliber Size: 9.7*7cm/3.82*2.75in

Package Size: 26*16*20cm/10.24*6.3*7.87in

Gross Weight: 1.35kg/2.98lbs

Net Weight: 1.3kg/2.87lbs

Package Included

1* Feed Pellet Machine

4* Blades

1* Hopper

Other Accessories for Assembly

How to Use

1. Prepare the raw materials, like meat, eggs, carrots, soybeans, corn, etc.
2. You need to use a grinder(not included)for grinding these raw materials.
3. Add water to mix the powder.
4. Pellet making.
5. Dewatering and drying.

Application

This product can be used to make bird food, fish food, chicken food, rabbit food, cat food, dog food, sheep food, etc. It is widely used in grain feed processing plants,livestock farms and feed processing plants,etc.

Notes

1. Please note that this is a DIY hand-working tool, before you order, you should know how to make the feed pellet.
2. Please note that the raw materials must be crushed into flour and mixed evenly with water before being loaded into the hopper.
3. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before ordering.
