

# FENCE ASSEMBLY INSTRUCTIONS

FEMALE CONNECTOR  
& 4 NUTS/BOLTS  
FOR EACH (6 TOTAL)

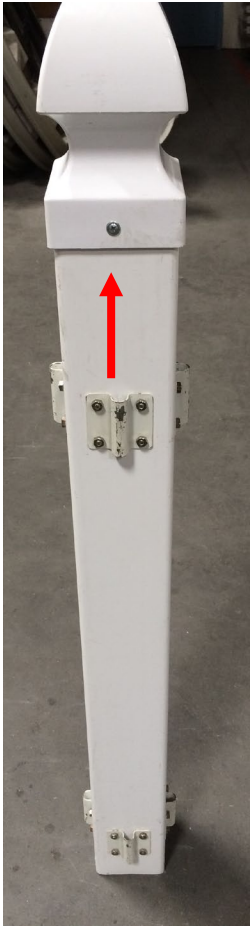

MALE CONNECTOR  
& 2 SCREWS  
FOR EACH (4 TOTAL)

# SAMPLE

Make sure to secure the cap to the post side with the larger distance from the bracket

Secure the additional screws to the top and bottom rail through the end pickets and then the 5<sup>th</sup> picket in from the end – only on one side of the fencing, not both sides
