

LED Panel Light Installation Instructions

Thanks for using our products. Please read these installation instructions before installing the luminaire, and keep them for future reference.

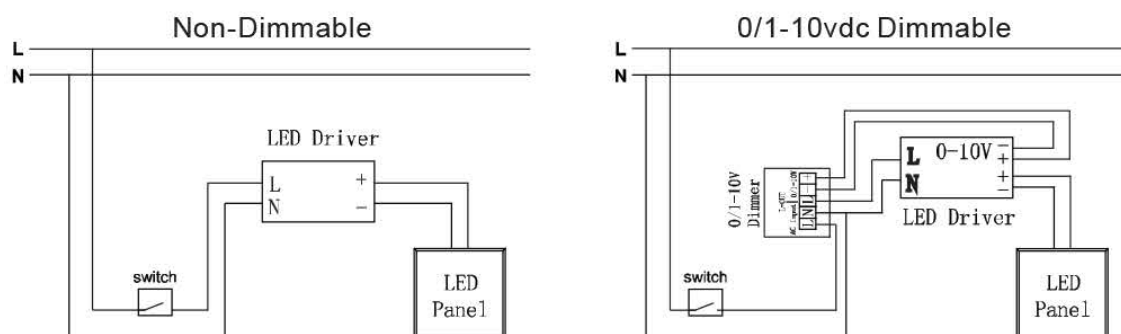

Technical Data

Product Name	Dimensions	Input Voltage	Frequency	Power Consumption	Installation Method
LED Panel Light	303x1213mm	120-277Vac	50-60Hz	40W	Recessed in plaster or grid ceilings Utilization of Earthquake Clips Surface-Mounted
	603x603mm	120-277Vac	50-60Hz	40W	
	603x1213mm	120-277Vac	50-60Hz	50/70W	

Warning

- Luminaire must be installed, checked and repaired by an authorized electrician.
- This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
- For proper operation, make sure to connect the luminaire to the proper voltage and install it according to these instructions.
- For safety purposes, cut off the power and allow the luminaire to cool before installing or removing it.
- Don't install the panel light to an unstable ceiling or near combustible materials.
- Cut off the power if there are any unexpected occurrences.
- Do not alter or modify the luminaire or change any of the components.
- Do not use the luminaire under conditions of direct sunlight, humidity, fog, rain, corrosive gas, dust, or liquid.

Wire Connection

Installation Instruction

Recessed In Plaster Or Grid Ceilings

<p>① For installation in plaster ceilings, cut an opening of the appropriate size, and then connect the panel light to an incoming power line.</p> 	<p>② Rotate the panel light by 45 degrees.</p> 	<p>③ Pass the panel through the ceiling surface.</p> 	<p>④ Lay in the panel light on the ceiling surface or grid.</p> 
--	--	---	---

Utilization of Earthquake Clips

<p>① Pull earthquake clip away from panel until facing perpendicular to the panel surface.</p> 	<p>② Bend earthquake clip 90°.</p> 	<p>③ Install panel light on grid supports.</p> 
--	--	--

Surface-Mounted Installation

<p>① Assemble the mounting brackets.</p> 	<p>② Drill 4 small holes in the ceiling surface, and then install the rubber plugs and the brackets in the ceiling.</p> 	<p>③ Remove one side of the brackets.</p> 
<p>④ Connect the panel light to an incoming power line.</p> 	<p>⑤ Install the panel light into the brackets.</p> 	<p>⑥ Install the remaining side of the bracket.</p>
