Wall Mounting Instructions

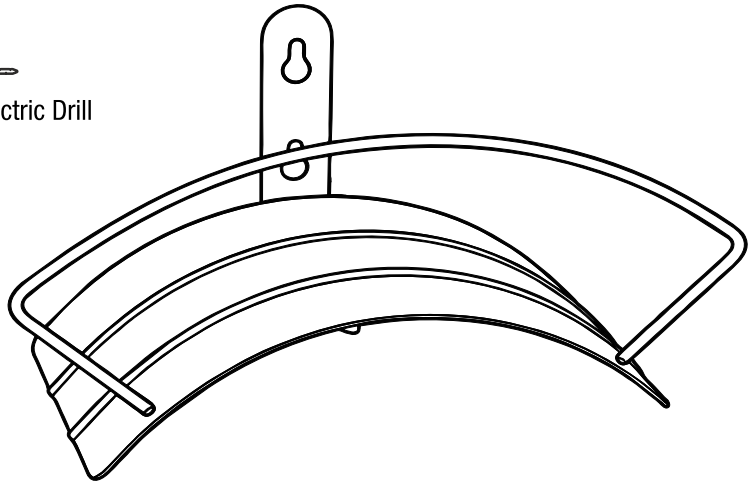

Item# 50-LG409

TOOLS REQUIRED (Not Included)

Claw Hammer

Phillips screwdriver

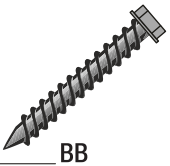

Electric Drill

HARDWARE (Included)

NOTE: Hardware is not shown to actual size.

AA

BB

Part	Description	Quantity
AA	Plastic Anchors	2
BB	Pan Head Screws	2

Check and ensure that there is no electrical or water line behind the point marked for drilling.

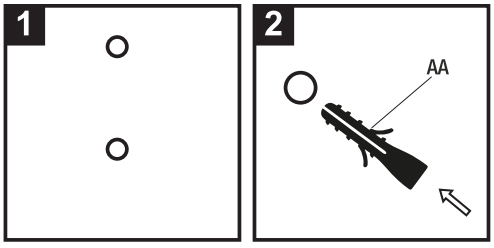

1 Preparing to mount on a wall

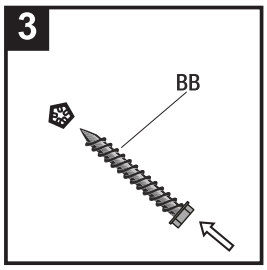

(1) Locate and mark the desired mounting position according to the hanging holes

(2) Drill 0.32 inch(8 mm) holes into the wall at the marked locations and insert the plastic anchors (No anchors needed for wood walls).

(3) Use a hammer to tap the anchors into the hole until they are even with the hole so they can hold the screws.

(4) Use a hammer to tap the nails through each hole and into the plastic anchors.

2 Hanging the hose hanger

(1) Carefully hang the hose hanger on the **pan head screws** (BB).

(2) Pull the hanger down gently to check for stability before hanging the hose on the hanger.
