1 Body
with 1 leg attached

1 Leg

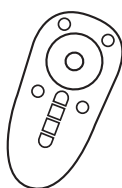

4 Screws

1X Allen Wrench

1 Remote

1X Power Plug

Complete Setup

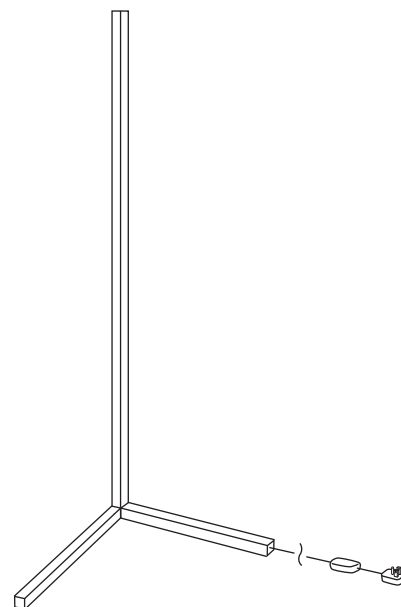

Fig. 1

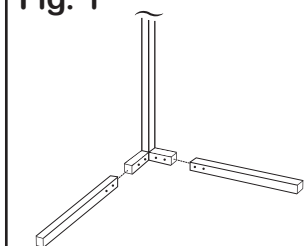

Fig. 2

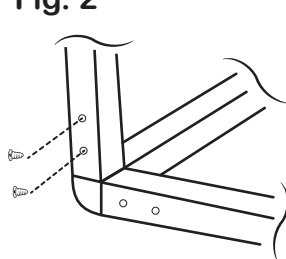

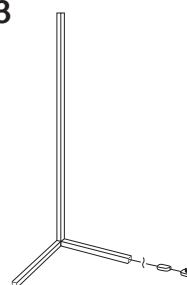

Fig. 3

1

Remove everything from box.

2

Slide both legs onto the lamp body as shown in Fig. 1 Gently pull the power wire tight for the leg to attach to the lamp body if needed.
(You may need to loosen the screws for the leg to fit properly.)

3

Tighten screws once all screws are in place to secure lamp from falling over (Fig 2).

4

Thank you & enjoy your new amazing light!

Caution:

Do not use the power supply beyond the specified range (100-240v, 50Hz)

Be careful not to cut wire during setup.

Not intended for outdoor use.

Use only water and soft cloth to clean, no chemicals.
