

Commercial 350W Coffee Grinder Burr Mill 1.2kg Round Hopper Aluminum Body

Description:

Rated voltage / frequency: 110V/60Hz (US PLUG) , 220V/50Hz(EU PLUG)

Rated power(moto power): 350 W/1400RPM

Bean hopper capacity: 1.2 kg

GW/NW: 15.5kg/12.5kg

Dimensions: 300*210*560 mm

Packing Size: 68*30*42cm

Crushing force (Smash Ability): 6 ~ 9 kgs / hour

Dispenser capacity: 200g (coffee bean power);

Burrs diameter: 64 mm (flat)

Main body(material): Aluminum

Hopper(material): ABS

Color: White

Feature:

1. Heavy Duty cast Aluminum body
2. 304 stainless Steel casted dispenser,right/left hand handle
3. Extra wide dosing capability from as low as 5g to 10+g per dose
4. Specially hardened tooling steel grindstones
5. Micro adjust table for accurate grinding
6. Manual(s):Manual on-off control allocation of powder

Cautions:

We carefully considered about the safety of this production when we began to design and manufacture. But the user should be in accordance with the norms when you use the production. The terms below are necessary safety measures.
