Helpful Hints Before Assembling:

Before you begin, you will need the following:

- 1) An electric screwdriver is recommended; however you can use an old fashioned one too.
 - 2) You may need a friend to help hold the lid for assembly.
- While this little guy is cute, we recommend a human friend!

Buy your litter pan

The interior space for the litter pan is 22.5" x 17" and will fit most Giant or Jumbo litter pans. If you need a larger litter pan, you can remove the interior panel.

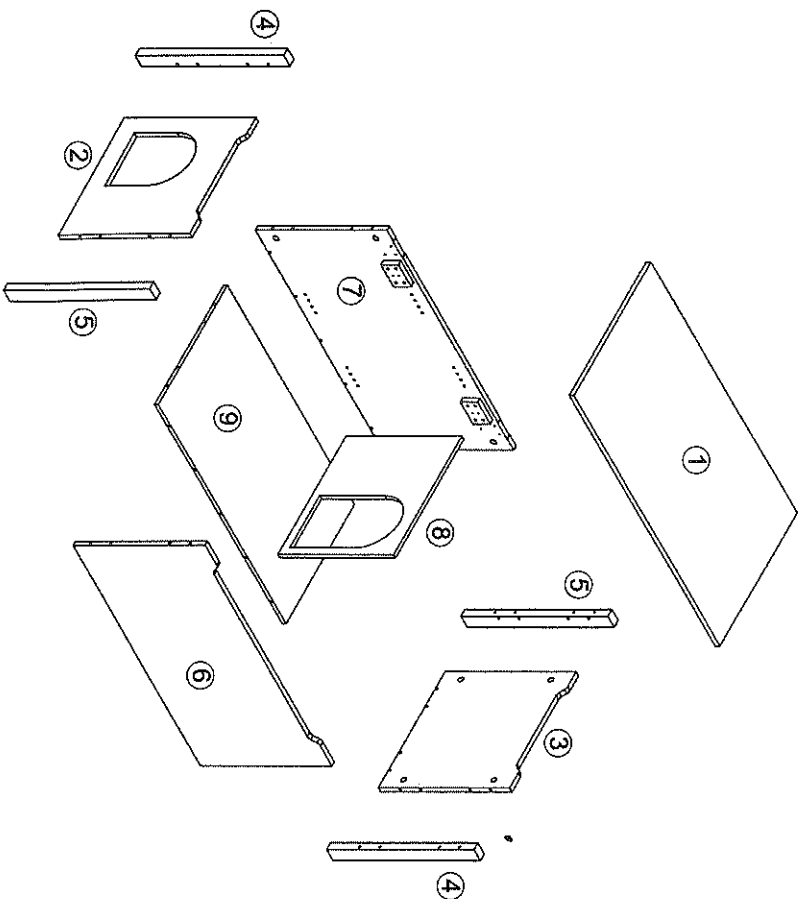

Keeping Your Catbox Clean

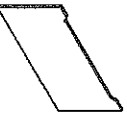

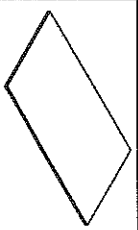

For best results, vacuum out any litter that may be kicked out of the litter pan. Do not try to wipe away litter as this may scratch the paint. After the litter has been vacuumed, you can clean the Catbox using a mild cleaner. Test cleaners in a discrete location first, such as an interior panel, to ensure that there is no adverse reaction. Do not expose Catbox to direct sunlight, drying heat sources, or dampness.

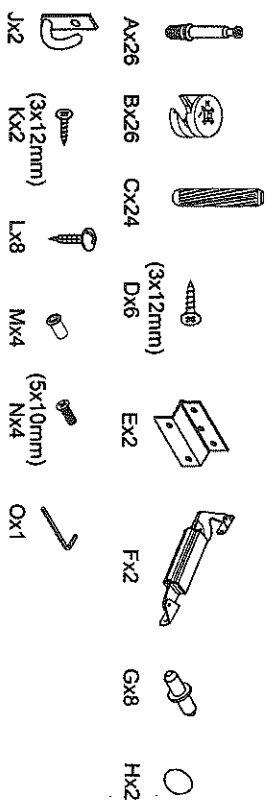

And the Obligatory Warnings.....

- Keep small parts away from children to avoid choking.
- This not a children's product. Keep children away from product.
- The the Designer Catbox is a sturdy piece of furniture, but it is not designed for all to sit on.
- Use caution when closing the top of the Designer Catbox so that your fingers do not get caught.
