

APPLIQUES & ONLAYS

SAFETY INSTRUCTIONS

- Make sure to use the correct tools recommended.
- Wear proper protective gear.
- Follow fixture, power tools, paint manufacturers' instructions, and users manuals.
- Use common sense and follow good construction practices.

TOOL & MATERIAL CHECKLIST

- ☐ construction adhesive
- ☐ caulk
- ☐ caulking gun
- ☐ nail gun
- ☐ finishing nails
- ☐ extra fine sandpaper
- ☐ paint

SPECIAL INSTRUCTIONS AND NOTES

- It is highly recommended that you paint/finish our appliques with 100% acrylic latex paint before you install them. Once installed, you can apply any necessary touch-up paint/finish.
- Clean installation surface and back of appliques of all dirt and dust with a clean cloth or sponge.
- Make sure that the surface and the back of the applique are completely dry before attempting installation.

STEP BY STEP INSTRUCTIONS

- Lay the applique face down on a soft surface that will not scratch/dent the applique detail.
- Apply a 1/2" bead of adhesive caulk all the way around the back edge of the applique.
- When pressing the applique up against the surface, some adhesive caulk will seep out. Smooth excess caulk around the applique with a finger or the putty knife and apply extra caulk that is needed to fill in any gaps.
- Wipe off any excess caulk with a sponge or damp rag.
- Larger appliques will need to be installed with nails in addition to the adhesive.
