Rich with sweeping lines inspired by Spanish architect Santiago Calatrava's World Trade Center Hub known as the Oculus this chair delivers an undeniably unique style. Rattan poles with light gray leather bindings are shaped over a circular frame creating a deep seat with curves that hug you from every angle. The negative space creates an airy volume. A gray wash finish accentuates the organic materials and adds an extra element of natural class. finish will vary.

CONTRACT RECOMMENDATIONS: Not for use in high traffic/public spaces
