Electric Standing Desk Instruction Manual

Rev00

Model:

MSESD10B / MSESD10N / MSESD10V / MSESD10W / MSESD10G / MSESD10LV / MSESD10LW / MSESD10WN / MSESD10RB

MSESD11B / MSESD11N / MSESD11V / MSESD11W / MSESD11G / MSESD11LV / MSESD11LW / MSESD11RB

Thank you for choosing this product! We strive to provide you with the best quality products and service in the industry. Should you have any issues, please don't hesitate to contact us.

Specifications

Height Adjustment Range 30.7—46.5" (78–118cm)

Power Input 100V-240V

Max Speed 20mm/s

Operating Noise < 55dB

Tools Needed (not included)

Drill

Phillips Screwdriver

Supplied Parts and Hardware for Step 1

Bolt M6 x 35mm

x 8

Bolt M6 x 8mm

8 x

Small Allen Wrench 5/64" (2mm)

x 1

Rubber Pad

G x 8

Leg

Leg Base

03) x 2

Crossbar

Transmission Rod

x 1

Side Plate

06) x 2

Screw M5 x 15mm

C x 10

Controller

Desktop

Supplied Parts and Hardware for Step 3

Cable Clip

F x 2

may vary.

AC Adapter

Supplied Parts and Hardware for Step 4

Screw M5 x 15mm

C x 12

Backstop

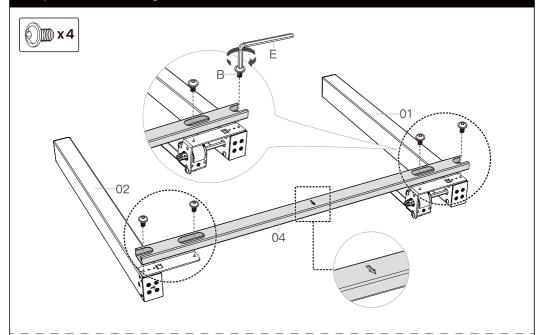

Backstop

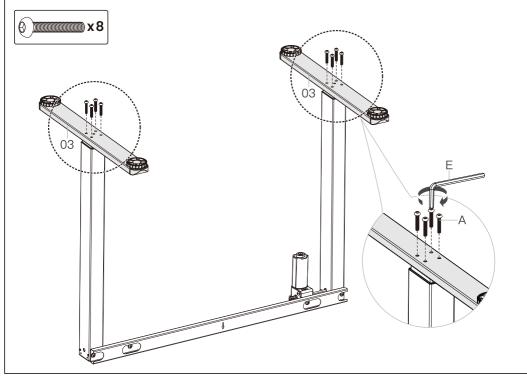

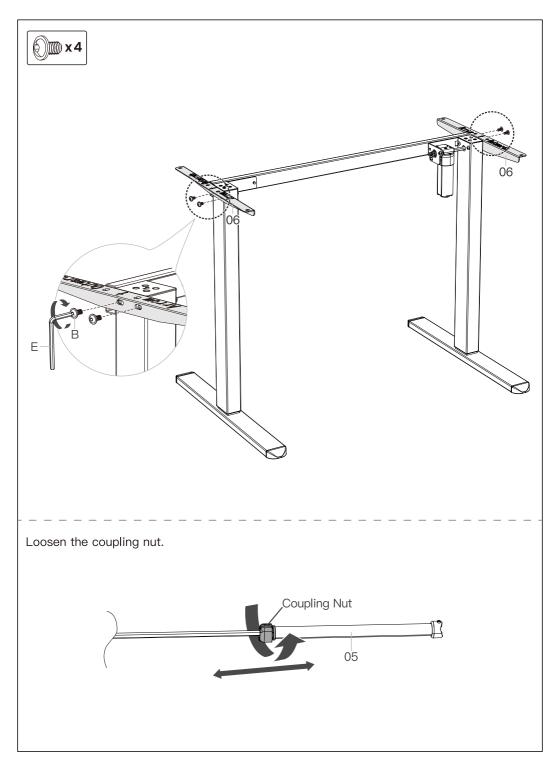

Contact Us

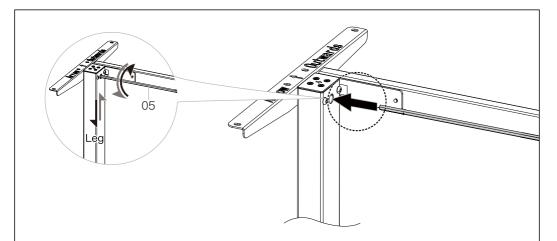

If you receive parts that are damaged, defective, or are missing parts, please contact us.

Step 1 Assembling the Frame

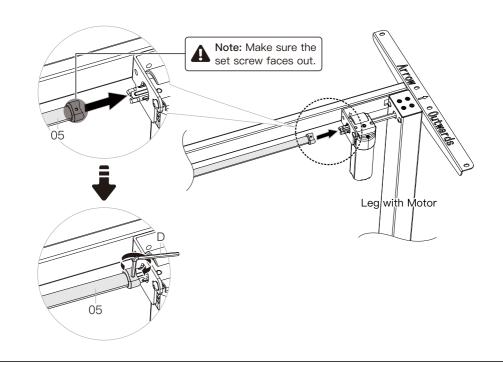

Adjust uneven desk legs if needed:

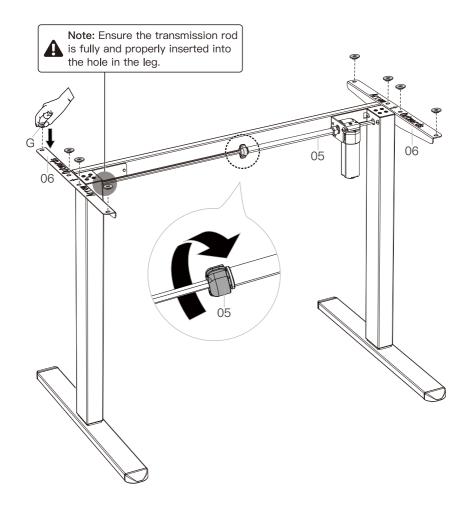

Measure the heights of the two desk legs to see if they are set at the same level. If not, turn the rod to adjust the leg until it's level with the leg with motor. Turn the rod clockwise to lower the leg or counter-clockwise to raise it.

Smoothly connect the other end of the rod to the end of the motor drive shaft on the leg with motor.

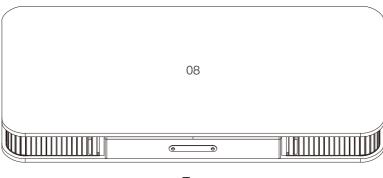

Tighten the coupling nut to fine-tune transmission rod fit, then attach the rubber pads.

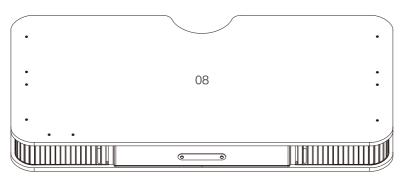

Step 2 Attaching the Desktop and Controller

Top

Bottom

IMPORTANT:

Some pre-drilled hole locations may vary between desks of different sizes. The illustrations demonstrate assembly steps using one desk size, but should remain similiar for each installation process.

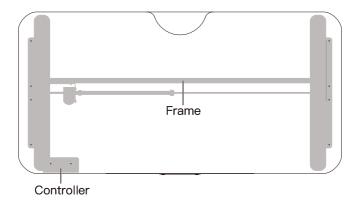

If you have any issues, please contact us.

For 48" long desk

For 55" long desk

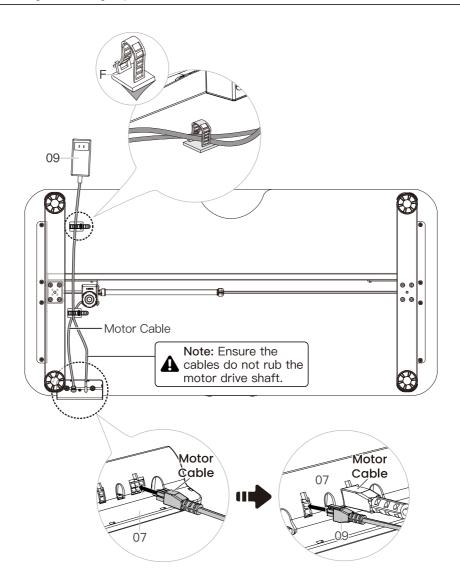

Step 3 Connecting the Cables

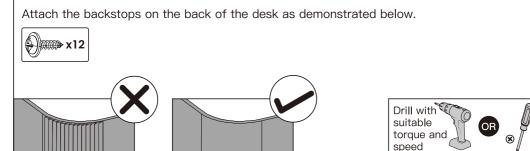

Tip: An example of a cable clip layout is indicated below. However, the cable clips can be arranged according to your needs.

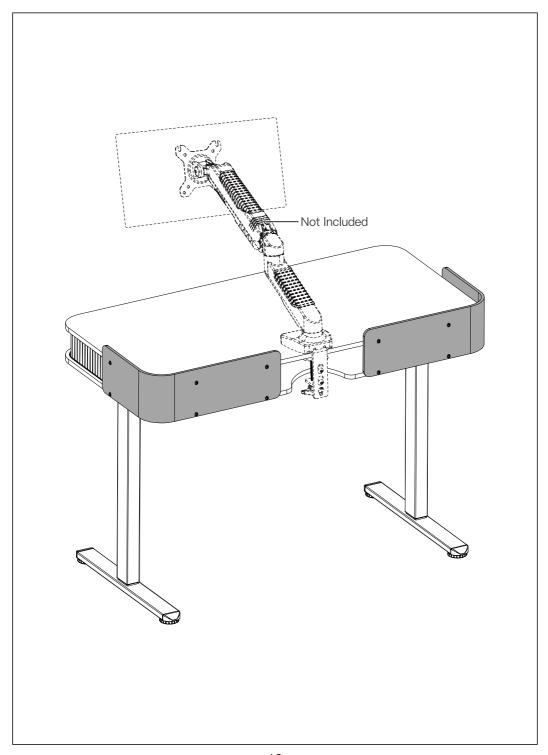

Note: When flipping the desk over, do not allow the controller to collide with the ground, which could cause damage.

Step 4 Attaching the Backstops

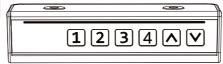

not included

Tip: Remove the protective film on the door if needed. Back

Using the Controller

Note: Ensure that there are no obstacles when using the desk, that the desktop is not too close to the wall, and that all cables are long enough for the desk to move up and down freely. When the controller screen is off (power–saving mode), press any button to wake it before operation.

Suggestion: Set the most comfortable height when you sit down to 1 and the most comfortable height when you stand up to 2. The other two presets can be set for another user or for other heights you want to use.

Save Current Height Setting

Four heights can be saved. Press and hold the 1, 2, 3, or 4 button for 5 seconds until 'H1,' 'H2,' 'H3,' or 'H4' displays and flashes. The screen will display the current height, which will be saved to that button.

• Select Height Setting 1

Press the 1 button. The desk will move to the height that was previously set for that button.

• Select Height Setting 2

Press the 2 button. The desk will move to the height that was previously set for that button.

Select Height Setting 3

Press the 3 button. The desk will move to the height that was previously set for that button.

• Select Height Setting 4

Press the 4 button. The desk will move to the height that was previously set for that button.

Raise the Desk

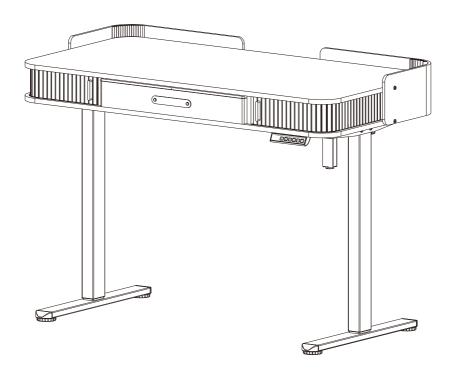

Press the button to raise the desk continuously until it reaches the highest position of 46.5" (118cm) or the button is released.

Lower the Desk

Press the ⊌button to lower the desk continuously until it reaches the lowest position of 30.7" (78cm) or the button is released.

Settings	
Reset	1. Press and hold the ☑ button until the desk goes down to its lowest level, then release the button.
'RES' displays as res on the screen.	2. Press and hold the ☑ button for 5 seconds, and the screen will display 'RES.' Continue holding until the desk goes down to its lowest level and comes back up slightly. Reset is complete.
Protection Mode Error Codes	
Hot	Overheating Protection: When the motor has been working continuously for 5 minutes, it will stop operating to prevent damage from overheating. Wait for at least 15 minutes before making any further height adjustment.
E10	Motor safety sensor cannot be detected. Power off, disconnect the controller cable, wait for 5 minutes, reconnect the cable, then power back on. Follow the reset procedure detailed above.
E20	Overload Warning: Max load exceeded. If raising the desk, remove all items from the desk and try again. If lowering the desk, power off, remove all items from the desk, power back on, then try again. If error code persists, follow the reset instructions.
E02	Operation Status Warning: The desk stops moving if vibration, impact, or incline are detected. If this detection is incorrect, follow the reset instructions before continuing use.
E32	Overvoltage Protection: Input voltage too high. If the correct AC adapter is being used, power off, disconnect the controller cable, wait for 5 minutes, reconnect the cable, then power back on. Follow the reset procedure detailed above.
E31	Undervoltage Protection: Input voltage too low. If the correct AC adapter is being used, power off, disconnect the controller cable, wait for 5 minutes, reconnect the cable, then power back on. Follow the reset procedure detailed above.
_	Cable Disconnection Warning: Power off, disconnect the controller cable, wait for 5 minutes, reconnect the cable, then power back on. Follow the reset procedure detailed above.

Thank you again for choosing this product!

All of us do appreciate your product purchase. We hope that you are as happy with your product as we are designing and manufacturing it for you. We strive to provide you with the best quality products and services in the industry. Should you have any issues, please don't hesitate to contact us.
