# Before You Start

---

## Overview

1. Check and ensure you have received all packages and necessary parts.
2. Prepare adequate assembly space. We recommend using pads or cardboard to prevent the floor from scratches.
3. Read the instructions to familiarize yourself with the assembly requirements. Allow sufficient time and have someone available to assist you if needed.
4. Place all hardware on a soft surface for easy identification.
5. The seller is not responsible for any damage or injury caused by improper assembly or use.
6. If you need further assistance, please contact us through [service@hernest.com](mailto:service@hernest.com)

## Caution

1. Children must not assemble this product. During assembly, keep small parts away from children as swallowing or inhaling them could be fatal.
2. Do not allow children to stand, climb, or play on the product, as it may tip over and cause serious injury.
3. Keep plastic packaging bags away from children to prevent risks of suffocation.
4. Avoid sharp objects and corrosive chemicals to prevent product damage or personal injury.

## Material Specifications

### Solid Wood

Natural grains, scars, and color variations are inherent in real wood, which contribute to its unique beauty. Slight color changes may occur under different lighting and angles, due to variations in wood grain and light intensity.

### Marble and Engineered Stone

Each marble and engineered stone piece has a unique pattern. Due to the nature of the materials, the pattern may differ from the one you see when purchasing.

## Step 1

## Step 2

**Finished!**

Fantastic, we're nearly there! Please carry out the following checks:

1. Have you tightened all the screws?
2. Are the levelers aligned with and making contact with the ground?

# Troubleshoot

| Product Category | Fault                        | Cause Analysis                                                                             | Handling Method                                                                                               |
|------------------|------------------------------|--------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|
| Wood furniture   | Door opening is not flexible | The furniture is not leveled                                                               | Use items to level the furniture                                                                              |
|                  |                              | The door hinges should be adjusted properly.                                               | Adjust door hinges and apply lubricating oil.                                                                 |
|                  | Inflexible opening of drawer | Overload or deformation                                                                    | Reduce weight,adjust guide rails, lubricate                                                                   |
|                  | Loose component connection   | Loose hinges or screws                                                                     | The poke part should be coated with an appropriate amount of 502 glue, then re-install or tighten the screws. |
|                  | Minor scratches              | friction with hard o sharp objects                                                         | Use a brush to apply similar pigment ink along wood grain to the scratches, then wipe off the excess.         |
|                  | Corrosive stains             | Accidentally stained with chemical solvents such as nail polish, nail polish remover, ect. | Wipe them with a dry cotton cloth immediately                                                                 |

### Possible Issues During Assembly:

The two boards can't be aligned at he same level.

Holes on the bards and poles are not aligned, so screws can't be installed.

### Recommended Solution:

Please sightly loosen all screws and adjust the bards. Because the diameter of the holes on the pipes 23 mm lager than that of bots, the position of the boards can be adjusted.

If it is still doesn't work after adjustment, please contact us for more solutions.

# Usage and Maintenance

---

## Use and Care

Leave it vacant for half a month before use, maintain good ventilation to eliminate any odor.

Place items steadily, heavier items should be placed at the bottom to avoid tipping over. For high temperature or frozen items, please put a heat-resistant pad underneath.

Do not directly push or drag hard objects on the furniture to avoid scratching the surface.

Avoid prolonged exposure to sunlight or heat sources to prevent discoloration or fading.

Pay attention to moisture prevention to avoid mold. Keep the furniture placed steadily to prevent breakage or loosening.

Please educate children to stay away from the glass sharp corners of the furniture.

When opening and closing doors or drawers, handle them gently and check the screws regularly to tighten them.

Use a soft dry cloth to dust, a slightly damp cloth to clean the surface, avoid abrasive cleaners.
