

Dear Valued Customer,

Thank you for your order. VIMA decorative panels can be broadly applied to your in and outdoor home improvement projects such as wall décor, room divider, patio fencing... Our panels are made of rigid, waterproof, fire-resistant, and mold-free PVC board which are imported from Vietnam and CNC engraved at our factory in Kent, Washington. VIMA's panels come with a standard size 24"x 48" with variable thicknesses 1/4", 3/8" and 1/2". Additionally, We, VIMA, can satisfy your extra demand on panel size up to 48" x 96" thanks to our large format CNC machine, just send us your artwork and expected size via email and we will come back to you within 24 hours.

We would be thankful if you could spare a minute to write a product review on WAYFAIR if you are satisfied with VIMA's products.

Should you have any questions or comments on VIMA's products please feel free to reach us any time.

Sincerely,

VIMA Corporation
