TUBE PLUG

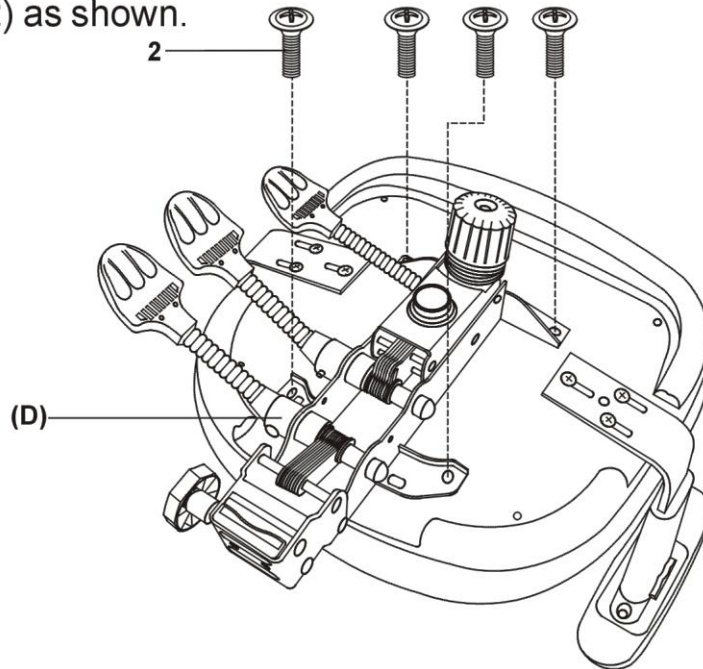

STEP 1: Place and firmly push the gas lift (E) and the gas lift cover (F) to the base in turn as shown. And to install the casters to the base.

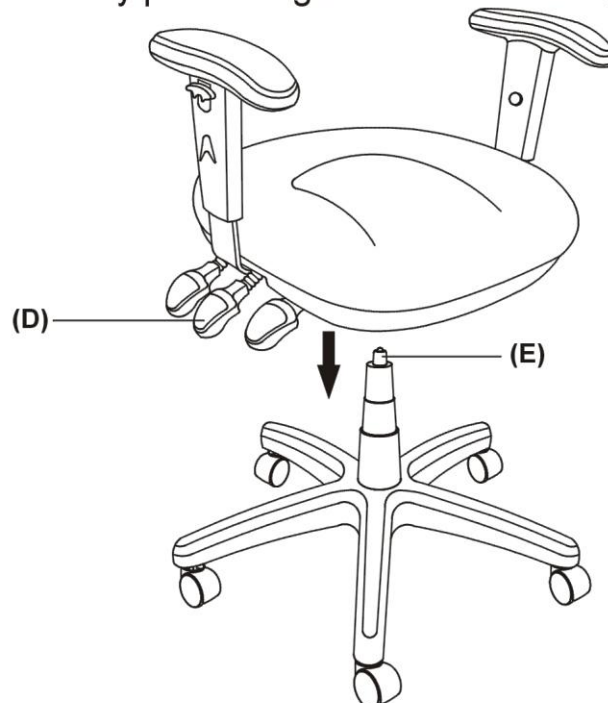

STEP 2: Position the arm rest so that the holes in the seat cushion match the holes in the arm rest. Then fasten the arm rest by using 3 large bolts (3) as shown. Repeat for the opposite side.

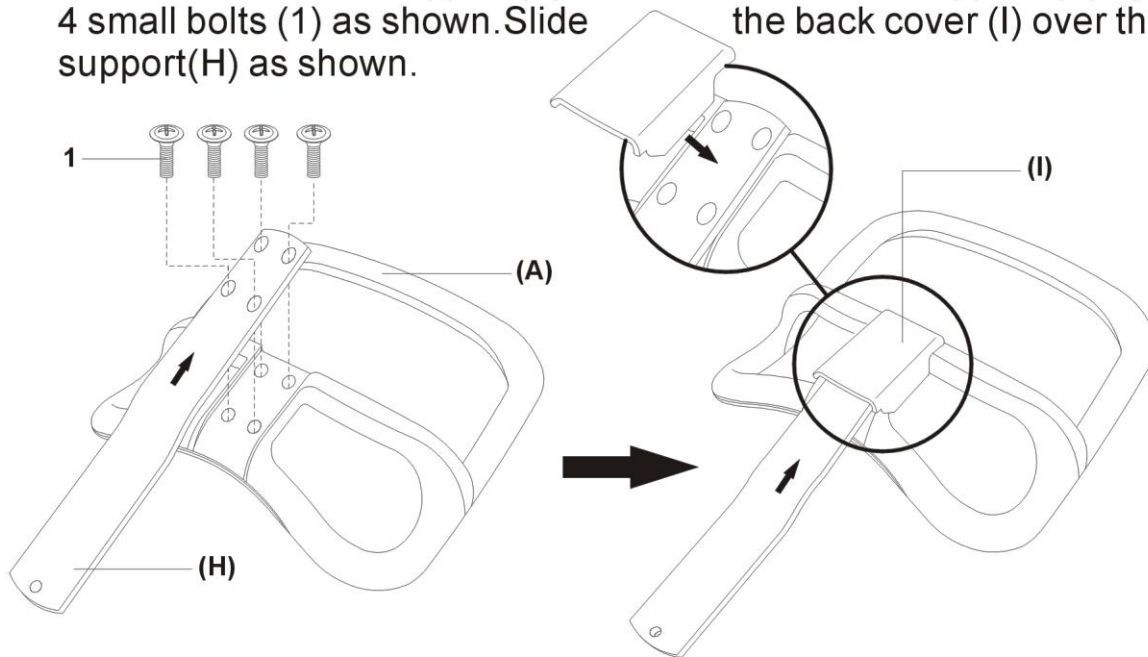

STEP 3: Position the seat plate so that the holes in the seat cushion match the holes in the seat plate. Then fasten the seat plate by using 4 medium bolts (2) as shown.

STEP 4: Place and firmly push the gas lift to the seat plate as shown.

STEP 5: Position the back support (H) so that the holes in the back cushion (A) match the holes in the back support (H). Then fasten the back support (H) by using 4 small bolts (1) as shown. Slide the back cover (I) over the back support (H) as shown.

STEP 6: Plug the back support (H) with the back cushion into the seat plate as shown. Fasten the back support (H) by using the tube plug (4), then adjust the height of the chair as shown.
