帐篷的维护和清洁

MAINTENANCE AND CLEANING OF TENTS

日常维护须知：

Maintenance instructions

- 1: 帐篷的布料一定要保持完全的干燥，不能让帐篷潮湿存放超过48小时，否则霉菌会影响帆布导致永久性的小黑点。

The cloth of the tent must be kept completely dry, and the tent should not be kept moist for more than 48 hours, otherwise mold will affect the canvas and cause permanent small black spots.

- 2: 帐篷布上已经浸湿了一种抗真菌剂和防水胶，可有效使用60周（也就是一年），超过这个时间的帐篷，需要更新清洁使帐篷更加干净透明话可以联系我们。

The canvas of the tent has been soaked with an antifungal agent and waterproof glue, which can be used effectively for 60 weeks (that is, one year). If the tent exceeds this time, it needs to be renewed and cleaned to make the tent more clean and transparent. If you can contact us.

- 1: 如果帐篷没有正确维护和受到不均匀的力量会最终导致损坏，想要保持帐篷良好的性能就要从平时的维护做起，使帐篷更加舒适使用次数长。

If the tent is not properly maintained and subjected to uneven forces, it will eventually lead to damage. In order to maintain the good performance of the tent, it is necessary to start from the usual maintenance to make the tent more comfortable and use for a long time.

日常清洁须知：

Cleaning instructions

为了您的利益，请尽可能保持布料清洁，并在创建污渍和痕迹时清除，灰尘和干泥最好在帐篷干燥后用干净的硬质毛刷刷掉。

For your benefit, please keep the cloth as clean as possible and remove stains and traces when creating them. Dust and dry mud should be brushed off with a clean hard brush after the tent is dry.

当处理真菌/霉菌时，使用软刷或海绵加大量的水。

When dealing with fungi / molds, use a soft brush or sponge with plenty of water.

只能使用专门的帐篷清洁产品来清除难以清除的污渍，其他化学物质可能会导致帐篷的损坏。

Only special tent cleaning products can be used to remove stains that are difficult to remove. Other chemicals may cause damage to the canvas.

拉链/寿命

ZIPPER / LIFE

拉链维护:

Zipper maintenance

帐篷上的拉链有时会承受极端的压力，这是由风和错误的帐篷设置或人或物体会造成损坏、为了防止对拉链的损坏，

Zippers on tents can sometimes withstand extreme pressure, which is caused by wind and damage caused by incorrect tent settings or objects. In order to avoid damage to the zipper, we suggest that:

我们建议： 1：在搭帐篷之前，请把所有的拉链拉上。

Please zip up all the zippers before setting up the tent.

2：小心搬运。

Handle with care.

3：在条件允许的情况下偶尔可以使用硅树脂或者润剂涂抹。

If conditions permit, silicone resin or China Resources agent can be used occasionally.

4：在搭帐篷之前，请确保您的拉链正常工作，因为使用后的帐篷是不保修的。

Before setting up the tent, please make sure your zipper works properly, because the tent after use is not guaranteed.

寿命须知:

Life maintenance

帐篷的寿命很大程度上取决于露营的条件、空气污染、紫外线辐射、天然污垢（鸟粪、沙子、盐水）和家庭污垢

The life of the tent depends largely on the conditions of camping, air pollution, ultraviolet radiation, natural dirt (bird manure, sand, salt water) and

（烹饪时留下的污渍、葡萄酒、防晒霜）都有可能限制您的帐篷使用寿命。

household dirt (cooking stains, wine, sunscreen) can limit the life of your tent
