

The G5 Countertop Model Hot and Cold is equipped with every feature of a floor-standing cooler, yet it fits easily on top of all countertops. The G5's black and graphite color adds a modern style to any home or office.

Filter System - Available in:

Standard Filter G5F
Stage 1: 5 micron Sediment
Stage 2: 1 micron Activated Carbon
Stage 3: 0.5 micron Post Carbon
Reverse Osmosis Filter G5RO
Above 3 stages plus
Stage 4: 50-GPD RO Membrane

Specifications

Dimension: 12.5"W x 15"D x 19"H
.5 Gallon hot tank
1 Gallon cold tank
2.3 Gallon room temp tank
Ambient connectors to filters
Water connection: 1/4" tubing
Weight: 20 lbs. (dry) + Filter pack 15 lbs.

Features

Simple and easy to use control panel
Safety button for hot tank
Adjustable cold temperature
External filter pack
Mechanical float water shut off system

Model G5CT
Global Water

PURE, ENDLESS WATER

866-289-7518

3 Stage Filtration or 4 stage Reverse Osmosis Filtration Technology

Stage 1

5 Micron Sediment Filter

The first stage is a 5 micron Sediment filter that helps improve Sediment such as sand, rust and silt that is present in most municipal water sources.

Stage 2

1 Micron Granulated Activated Carbon Filter

The second stage of filtration is a 2 micron, granulated activated Carbon filter. This filter uses an advanced Carbon technology to remove hundreds of cancer-causing constituents such as pesticides, insecticides, petrochemicals, M.T.B.E's, PCB's, defoliants, and benzene.

Stage 3

Reverse Osmosis Technology

The 3rd stage utilizes Reverse Osmosis technology, which removes any molecular compounds smaller in size than water molecules. Such compounds include salt, manganese, iron, fluoride, lead, and calcium.

Stage 4

0.5 Micron Carbon Block Filter

The 4th and final stage is a 0.5 micron Carbon block filter, which gives the water a final "polish". It removes 99% of lead and microbial cysts such as giardia and cryptosporidium. It also ensures that all chlorine has been removed, and that the water entering the holding tanks is completely odorless.

Available options:

Add Nano Silver Carbon Filter.

Upgrade to 180GPD Membrane.

Filter life 2500 Gallons or every 6 months

Replace (RO) Membrane every 3-4 years
