Product manual

1 Check if the accessories are complete

2 Install upper, middle, and lower brackets and balance feet

3 Install the layer board and connecting rod as shown in the following figure

Attention: Do not tighten all screws until installation is complete.
Tighten all screws and
nuts after installation is complete! ! !

4 Repeat steps 3 to install all

Attention: The excess holes after installation are for
adjusting the interlayer distance and do not
need to be paid attention to
