- Tools required for assembly (not included): flathead screwdriver, phillips screwdriver, safety glasses, ladder, pencil, drill, hammer, tape measure, level.

THIS MANUAL CONTAINS IMPORTANT SAFETY INFORMATION. PLEASE READ AND KEEP FOR FUTURE REFERENCE.

INSTALLATION

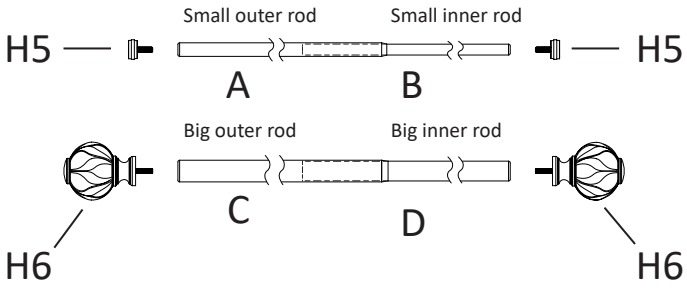

1 Preparing installation

- Before installation, measure windows to determine appropriate curtain rod length.

2 Assembling the curtain rods

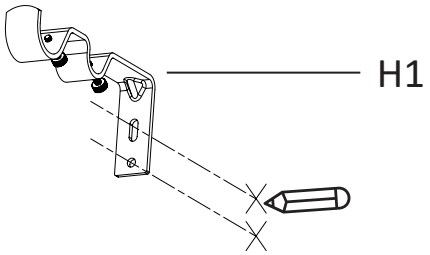

- Screw the small finials (H5) onto the ends of the small curtain rods (A, B).
- Screw the big finials (H6) onto the ends of the big curtain rods (C, D)

3 Mark the locations of the brackets

- Place the brackets (H1) against the wall at the desired locations.
- Mark screw-holes location with pencil (no provided).
- Ensure all marks are level across the opening.
- Install at least one bracket on each rod (inner and outer) to prevent rod movement.

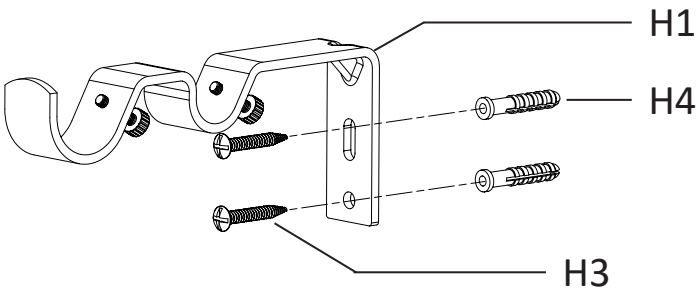

Note: A center support bracket may be needed depending on window width.

4 Installing the brackets

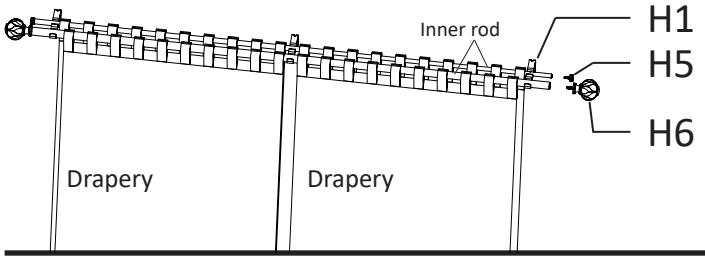

- Drill a small hole at each mark and push the plastic anchors (H4) into the wall with a hammer.
- Fasten the brackets (H1) onto the wall using the two wood screws (H3).

NOTE: If your wall is wood, do not drill holes. Use the two wood screws (H3) to secure the bracket (H1).

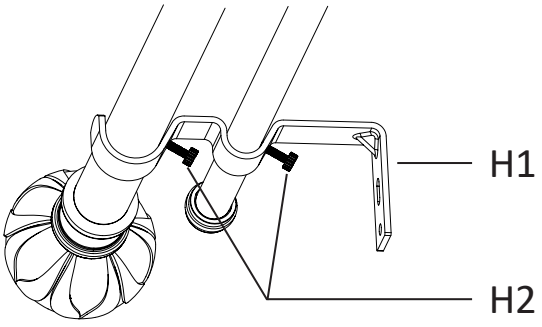

5 Rod installation

- Detach finial (H5, H6) from inner rods (B, D).
- Assemble shirr drapery treatment onto rods, then screw the finials (H5, H6) onto the inner rods (B, D).
- Extend rod to desired width and place it into the brackets. Adjust draperies to desired position.

6 Final Adjustment

- Tighten the locking screws (H2) on each bracket to secure the rods.

CLEANING

- Do not use any cleaners with chemicals, solvents, or harsh abrasives.
- Use only a dry or slightly dampened to dust or wipe carefully.

TROUBLESHOOTING

- Curtain rods not level:
    a) Brackets not installed correctly. Make sure to use level (not included) during installation.
- Curtain rods brackets is loose.
    a) Brackets not anchored correctly. Attach brackets to wall studs if possible. Use anchors and screws supplied if you can't attach to stud.
