

WARM TIP

For your protection and safety, carefully read and understand the information provided in this manual completely before attempting to assemble, install or operate this product. Failure to do so could lead to electrical shock, fire or other injuries that could be hazardous or even fatal. Please read the instruction carefully and keep it as you may need it in the future.

SAFETY INFORMATION

WARNING

We suggest installation by a licensed electrician.
NEVER attempt any work without shutting off the electricity.
Place the main power switch in the "OFF" position and unscrew the fuse(s), or switch "OFF" the circuit breaker switch(es), that control the power to the fixture or room you are working in.
Place the wall switch in the "OFF" position. If the fixture to be replaced has a switch or pull chain, place it in the "OFF" position.
Do not use bulbs with wattage greater than specified on this fixture.
If a dimmer control switch is used with this fixture, obtain professional advice to determine the correct type to use as well as the electrical rating required.
If you have any doubts about how to install this lighting fixture, or if the fixture fails to operate completely, please contact a licensed electrician.

PREPARATION

Estimated assembly time: 30 minutes to 1 hour
Tools Required for Assembly (not included): Phillips screwdriver, flat.head screwdriver,wire strippers, electrical tape, ladder, safety glasses.
Before beginning assembly of product, carefully take out the fixture and its accessories from the carton and make sure all parts and accessories are included.

CARE AND MAINTENANCE

Always be certain that electric current is turned off before cleaning this item or replacing the bulbs.
Use a soft, moist cloth with mild non-abrasive soap to clean fixture. Never use glass cleaner on fixture, as it will damage the metal finish.

PACKAGE CONTENTS
