PART LIST

Note:

1. Daily Use Avoid placing items with temperatures exceeding 80°C on the surface. We recommend using a heat-resistant mat to prevent the surface from bubbling or cracking due to heat.
2. Avoid direct contact with sharp objects (such as knives or metal utensils) to prevent scratching the surface texture and causing irreversible damage.
3. Avoid leaving strong acidic or alkaline liquids (such as vinegar, lemon juice, alcohol, or cleaning agents) on the surface for extended periods to prevent the laminate from corroding, discoloring, or delaminating.
4. Keep the surface away from heat sources and air vents (such as radiators and air conditioning vents) to prevent excessive temperature fluctuations that could cause the surface to shrink or crack.
