

# Pine bonsai pet bed (with legs)

**1** Check the accessories and place them properly to avoid loss during installation

**2** Hardware accessories: Screws \*8, wrench \*1, black connecting plate \*1

**3** Fix the pine leaf (middle) to the smaller end of the branch with screws

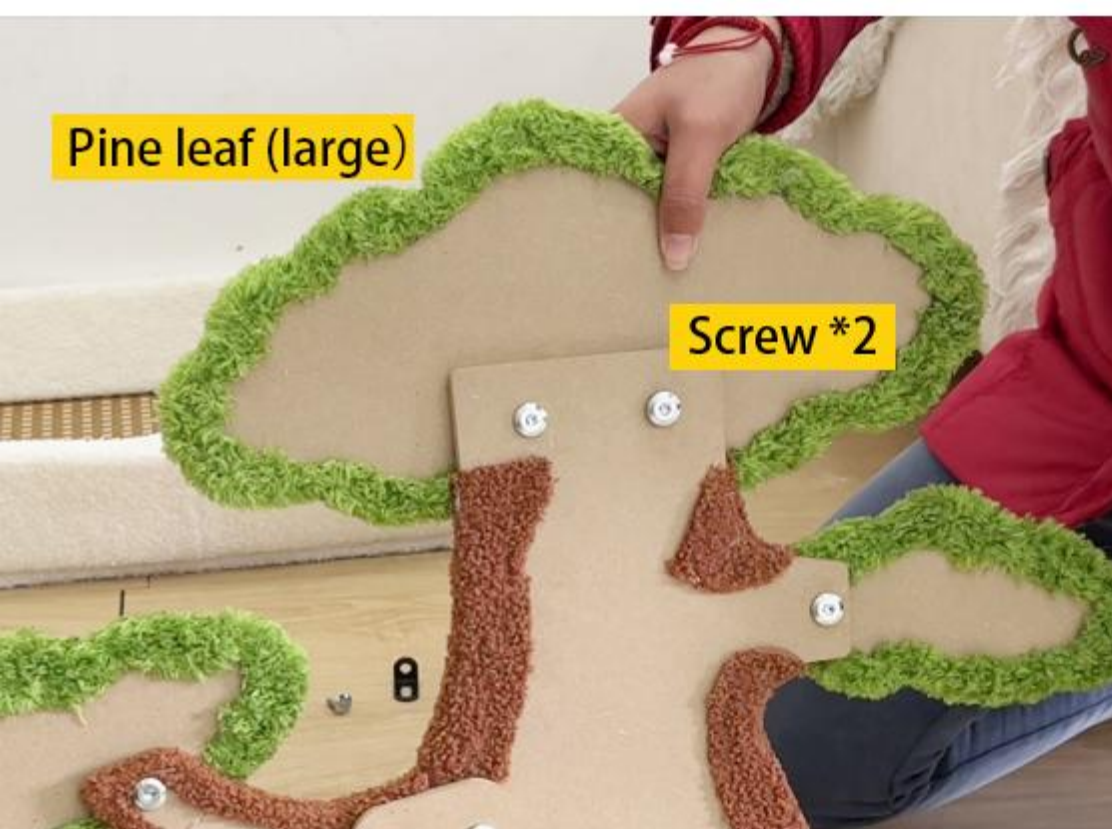

**4** Fix one end of the two-hole small square board to the larger end of the branch with screws

**5** Fix the branches to the trunk with screws

**6** Fix the pine leaves (small) to the other end of the tree trunk with screws

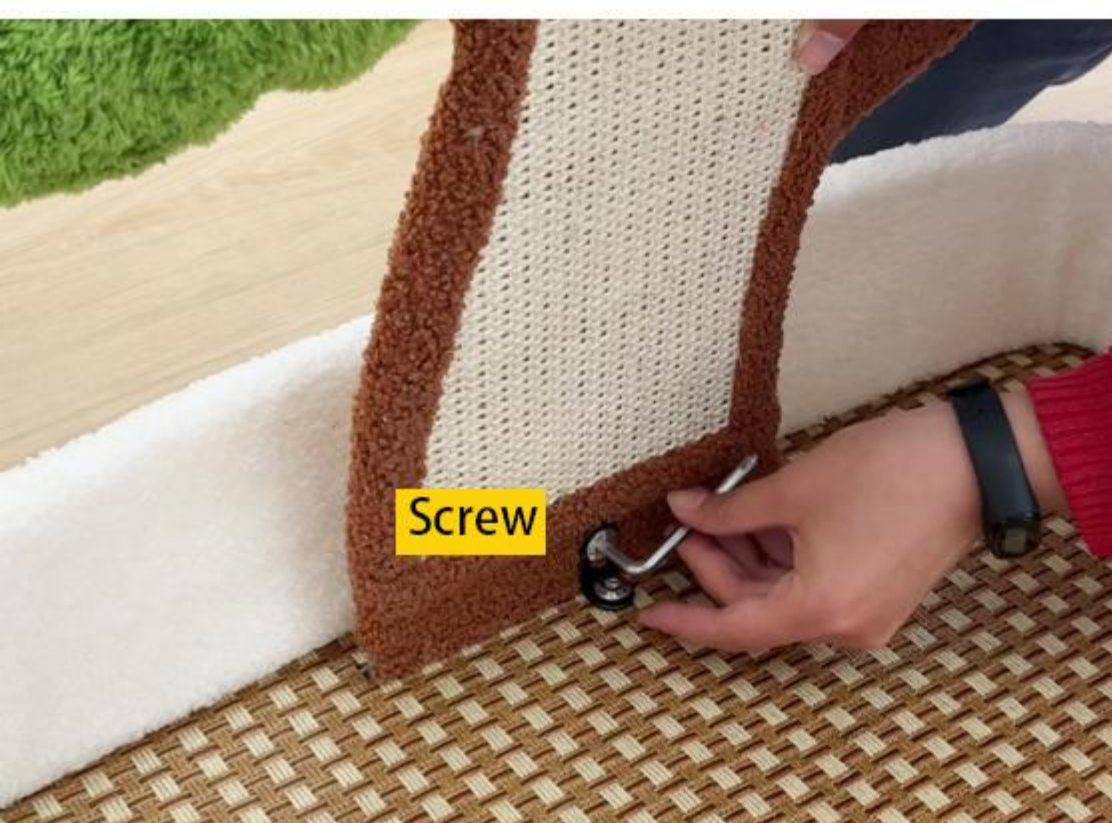

**7** Fix the pine leaf (large) to the upper end of the tree trunk with two screws

**8** Great! The pine trees have been assembled

**9** Fix the tree trunk to the square bed with black link pieces and screws

**10** Press the screw firmly into the hole and tighten it forcefully when it aligns with the hole

**11** Great! Just install four bed legs and it's done. Your home has gained another fashionable decoration
