

# INSTALLATION INSTRUCTIONS

1. Put the shelf supports in the matching holes, then put the shelf on top.

2. Then, place the door into the corresponding groove. First align the upper groove, then align the lower groove. Install both doors like this!

3. Use the screws to install the drawer handles and cabinet door handles on the corresponding hole positions, tighten them!

4. Finally, position the cabinet feet facing outward, align them with the corresponding holes, then secure and tighten with screws. Install all four feet in this manner.
