

BEDSIDE SLEEPER

Instruction manual

Item NO:C968

E-mail Service :bierumbaby@hotmail.com

Please read and keep the manual properly, it contains important information.

IMPORTANT

READ CAREFULLY - KEEP FOR FUTURE REFERENCE

- Read these instructions carefully before use and keep for future reference.
- Do not use the cot if any part is broken, torn or missing and use only spare parts approved by the manufacturer;
- Damages caused by overloading or wrong folding are not granted.
- Prolonged exposure to sunshine may cause changes in the color of materials and fabrics.
- Do not expose this product to extreme temperatures. Extreme sunshine or temperatures may cause color changes or bent parts.
- Failure to follow these warnings and the instructions could result in death or serious injury.

⚠ WARNING:

SUFFOCATION HAZARD:

Babies have suffocated:

- On pillows, comforters and extra padding.
In gaps between a wrong size mattress, or extra padding and product sides.
- On soft bedding. Use only the pad provided by BIERUM, never add a pillow, comforter or any other mattress for padding.
- If a sheet is used with the pad, use only the one provided by BIERUM or one specifically designed to fit the dimension of the mattress pad.
- Never leave the infant in the bassinet with side down unless it is positioned in sleeper mode securely attached to the adult bed with anchors in the place.
- To reduce the risk of SIDS (SUDDEN INFANT DEATH SYNDROME), pediatricians recommend healthy infants to be placed on their backs to sleep, unless advised by your physician.
- Do not use more than one mattress in the product. Placing additional items in the product may cause suffocation.

ENTRAPMENT HAZARD:

- To prevent death from entrapment, Bedside Sleeper must be properly secured to adult bed using the attachment system. There must be no more than inch (13mm) gap between bedside sleeper and adult bed.
- If gap exceeds 1/2 inch (13mm) DO NOT use product. DO NOT fill the gap with pillows, blankets or other items that can cause suffocation.
- Check tightness before each use by pulling bedside sleeper in a direction away from adult bed.

- Always read and follow assembly instructions for each product use (bedside sleeper or bassinet).
- Always use ALL required parts for each use mode. Check instruction manual for a list of required parts. Periodically check product for loose, damaged, or missing parts.
- Ensure all fittings of the bassinet are tightened properly.
- Do not use the body of the bassinet/ cradle without it's frame.
- The height of the bassinet/bedside sleeper can't be inclined in different positions and they should be in the same height positions. In order to adjust the height, pull the adjustment lever sides upwards.

SAFETY INFORMATION :

WARNING:

- Never leave your child unattended.
- Adult assembly, folding, and unfolding required.
- The use of this travel cot is for children with maximum weight up to 20 lb.
- To prevent injury from falls the travel cot shall no longer be used when the child is able to climb out of the travel cot.
- This travel cot is ready for use, only when the locking mechanisms are engaged and check that they are fully engaged before using the travel cot.
- To avoid injury ensure that your child is kept away when unfolding and folding this product.
- Do not fold the travel cot with a child in it.
- Do not let your child play with this product.
- Keep this product away from children when not in use.
- The use of this travel cot is recommended for 1 child only.
- Never move travel cot while the child is in it.
Only use travel cot on a firm and horizontal level.
- Never put travel cot near steps or stairs.
- Do not allow any children, animals, or other objects to be placed under or near the travel cot while the child is in the travel cot.
- Be aware of the risk of an open fire and other sources of strong heat, such as electric bar fires, gas fires, etc. in the near vicinity of the cot.
- Avoid hot liquids, power cables, and other possible dangers that may come within range of a child.
- Do not add padding or other objects inside your travel cot which will permit a child to climb out of the travel cot.
- Do not place items with a string around the child's neck (pacifier cords, hood strings, etc.).
- Do not leave anything in the travel cot or place the travel cot close to another product which could provide a foothold or present a danger of suffocation or strangulation, e.g. strings, blind/curtain cords, etc.
- The travel cot shall not be used without the mattress base.
- Do not use more than one extra mattress in the travel cot.
- The thickness of the mattress shall be such that the internal height (surface of the mattress to the upper edge of the travel cot frame) is at least 500 mm.

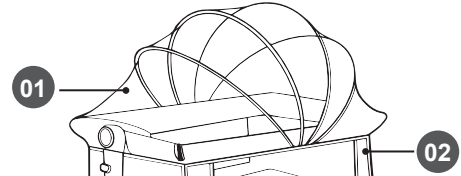

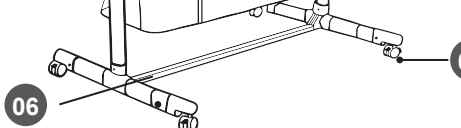

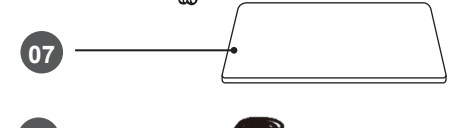

- When the mattress is used with the travel cot the length and width of mattress shall be such that the gap between the mattress and the sides and ends does not exceed 30 mm.
- To avoid suffocation, do not use extra paddings such as a water mattress, mattress, or pillow inside the travel cot.
- All assembly fittings should always be tightened properly and fittings should be checked regularly and retightened as necessary.
- Do not continue using travel cot if parts are broken or if the fabric is ripped or torn. Only use replacement parts approved by the manufacturer.
Replace any damaged parts immediately.

WARNING:

- Ensure that the fixing buckles are straight and not loose.
- When the bedside sleeper is attached/tied to the bed, the actual bassinet must remain straight and not lopsided. If the bassinet is not straight/flat, contact our customer service immediately for help.
- Before every use, check to ensure that there is no space between the adult mattress and the side of the bedside sleeper. If there is, pull the belts firmly to tighten until there's no space.
- Use of the product is permitted only for a bed or mattress with straight sides. Do not use the product with a round mattress or a water bed.
- This bedside sleeper is designed for use only with adult beds that are between 18.5 and 20.4 inches from floor to bottom of adult mattress.
- The product is designed to provide a sleeping area for an infant until he or she begins to push up on hands and knees or approximately 5 months of age.
- The adult beds that don't have the mattress, box spring and frame in-line can not be used with the bedside sleeper.
- Only adult beds that have the mattress, box spring and frame all in-line are acceptable.
- The removal and/or application operations may take a few minutes and should be carried out by an adult.

BEDSIDE SLEEPER MODE

3a. This bedside sleeper is designed for use only with adult beds that are between 18.5 and 20.4 inches from floor to bottom of adult mattress.

3b. To fix the bedside sleeper to the adult bed, remove the mattress from the bed.

3c. Move the bedside sleeper closer to the bed to check the height of the bedside sleeper. The height of the bedside sleeper should be equal to the mattress on the adult bed.

3d. The unzipped side of the bedside sleeper should be secured into the adult bedside.

3e. Use the Anchor Plate Straps (D) to fix the bedside sleeper to the adult bed.

The binding system must be in a horizontal state when installed on the bottom frame of the adult bed.

3f. Pass the straps under the mattress by pulling belts firmly until the straps are in the correct position as shown in the illustration.

3g. Tighten the harness of the anchor plate straps until it clicks into place.

MAINTENANCE

- To prolong the life of your co-sleeper, keep it clean and do not leave in direct sunlight for extended periods of time.
 - Always store your product in a clean dry place.
 - Do not allow the product to come into contact with sand or salt water; sand causes corrosion and salt water results in the formation of rust.
 - In some climates, the covers and trims may be affected by mold and mildew. To help prevent this occurring, do not fold or store the product if it is damp, always store the product in a well ventilated area.
 - To maintain the safety of your nursery product, seek prompt service for bent, torn, worn or broken parts.
 - Use the parts provided by the manufacturer, BIERUM Inc.
 - Regularly check parts for tightness of screws, nuts and other fasteners. Tighten as and when required.
 - On a regular basis, check the condition of the product for any possible damage. In case of damage, do not use it and keep it out of the reach of children.
 - For washing of the fabric, carefully comply with instructions indicated on the label.
 - Allow it to dry completely before folding or storing it away.
 - For cleaning, do not use solvents, abrasive or aggressive products.
- Periodically check the resistance of the fabric and of the stitching.

Hand wash in cold water

Do not bleach

Do not tumble dry

Do not iron

Do not dry clean

SAFETY INSTRUCTIONS

CAUTION ! READ ALL INSTRUCTIONS PRIOR TO USING THIS PRODUCT!

WARNING :

FAILURE TO FOLLOW THESE WARNINGS AND THE INSTRUCTIONS COULD RESULT IN DEATH OR SERIOUS INJURY.

- Read and follow instructions before assembly and use. If you do not have instructions, DO NOT use this product. Contact our customer service for help.
- DO NOT use bedside sleeper if any parts are missing, damaged, or broken, contact our service for replacement parts and instructional literature if needed. DO NOT substitute parts.
- Discontinue use of this product when child is able to roll over, push up unassisted, or is able to move out of the security of walled sleep area.
- NEVER leave a child unattended in an adult bed.
- **SUFFOCATION HAZARD**
 - To help prevent suffocation from entrapment, use only the mattress and mattress cover provided. NEVER use additional mattress padding or place objects in product. NEVER use more than one pillow per child on each side of this product.
 - DO NOT use this product on an adult water mattress or if the adult mattress is not firm enough to allow the product fixed to the bed.
 - ALWAYS ensure product's mattress is positioned correctly. DO NOT create any pockets between the product's mattress and mesh sides.
 - ALWAYS place the child to sleep on their back in this product.
- **STRANGULATION HAZARD**
 - Strings can cause strangulation! DO NOT place items with a string around a child's neck such as hood strings or pacifier cord. DO NOT suspend strings over Sleeper or attach strings to toys.
 - DO NOT place Sleeper near a window where cords from blinds or drapes can strangle a child.
- **FALL HAZARD:**
 - FALL HAZARD—To help prevent falls, do not use this product when the infant begins to push up on hands and knees or has reached [insert manufacturer's recommended maximum weight], whichever comes first.
 - Please use all required parts for each use (co-sleeper or bassinet).
 - Check instruction manual for a list of required parts.
 - Contact us if replacement parts or instructions are needed.
 - In Bassinet Mode, make sure that side panel is locked.
 - Use only on a flat, dry floor.

WARNING

FAILURE TO FOLLOW THESE WARNINGS AND THE INSTRUCTIONS COULD RESULT IN DEATH OR SERIOUS INJURY.

SUFFOCATION HAZARD

Babies have suffocated:

- On pillows, comforters, and extra padding
- In gaps between a wrong-size mattress, or extra padding and product sides
- **NEVER** add soft bedding or padding.
- Use **ONLY** mattress provided by manufacturer.
- Always place baby on back to sleep to reduce the risk of SIDS and suffocation.
- If a sheet is used with the pad, use only the one provided by the product manufacturer or one specifically designed to fit the dimension of the product mattress.
- On soft bedding.

FALL HAZARD: To help prevent falls

- Do not use this product when the infant begins to push up on hands and knees or has reached 20 lbs, whichever comes first.
- To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.
- If a sheet is used with the pad/ mattress, use only the one provided by the bassinet or cradle manufacturer or one specifically designed to fit the dimension of the bassinet or cradle mattress.

A bedside sleeper is designed to provide a sleeping area for an infant until he or she begins to push up on hands and knees or approximately 5 months of age. Move your child to another sleeping product when your child reaches this stage.

To avoid death from the infant's neck being caught on the top rail on the side that is next to the adult bed, the top rail must be no higher than the adult bed mattress.
