

USER MANUAL AND INSTALLATION GUIDE

Accessories List

Check and make sure you get the components on the list, contact us for any missing

For one person

Minimum 2 people to assemble

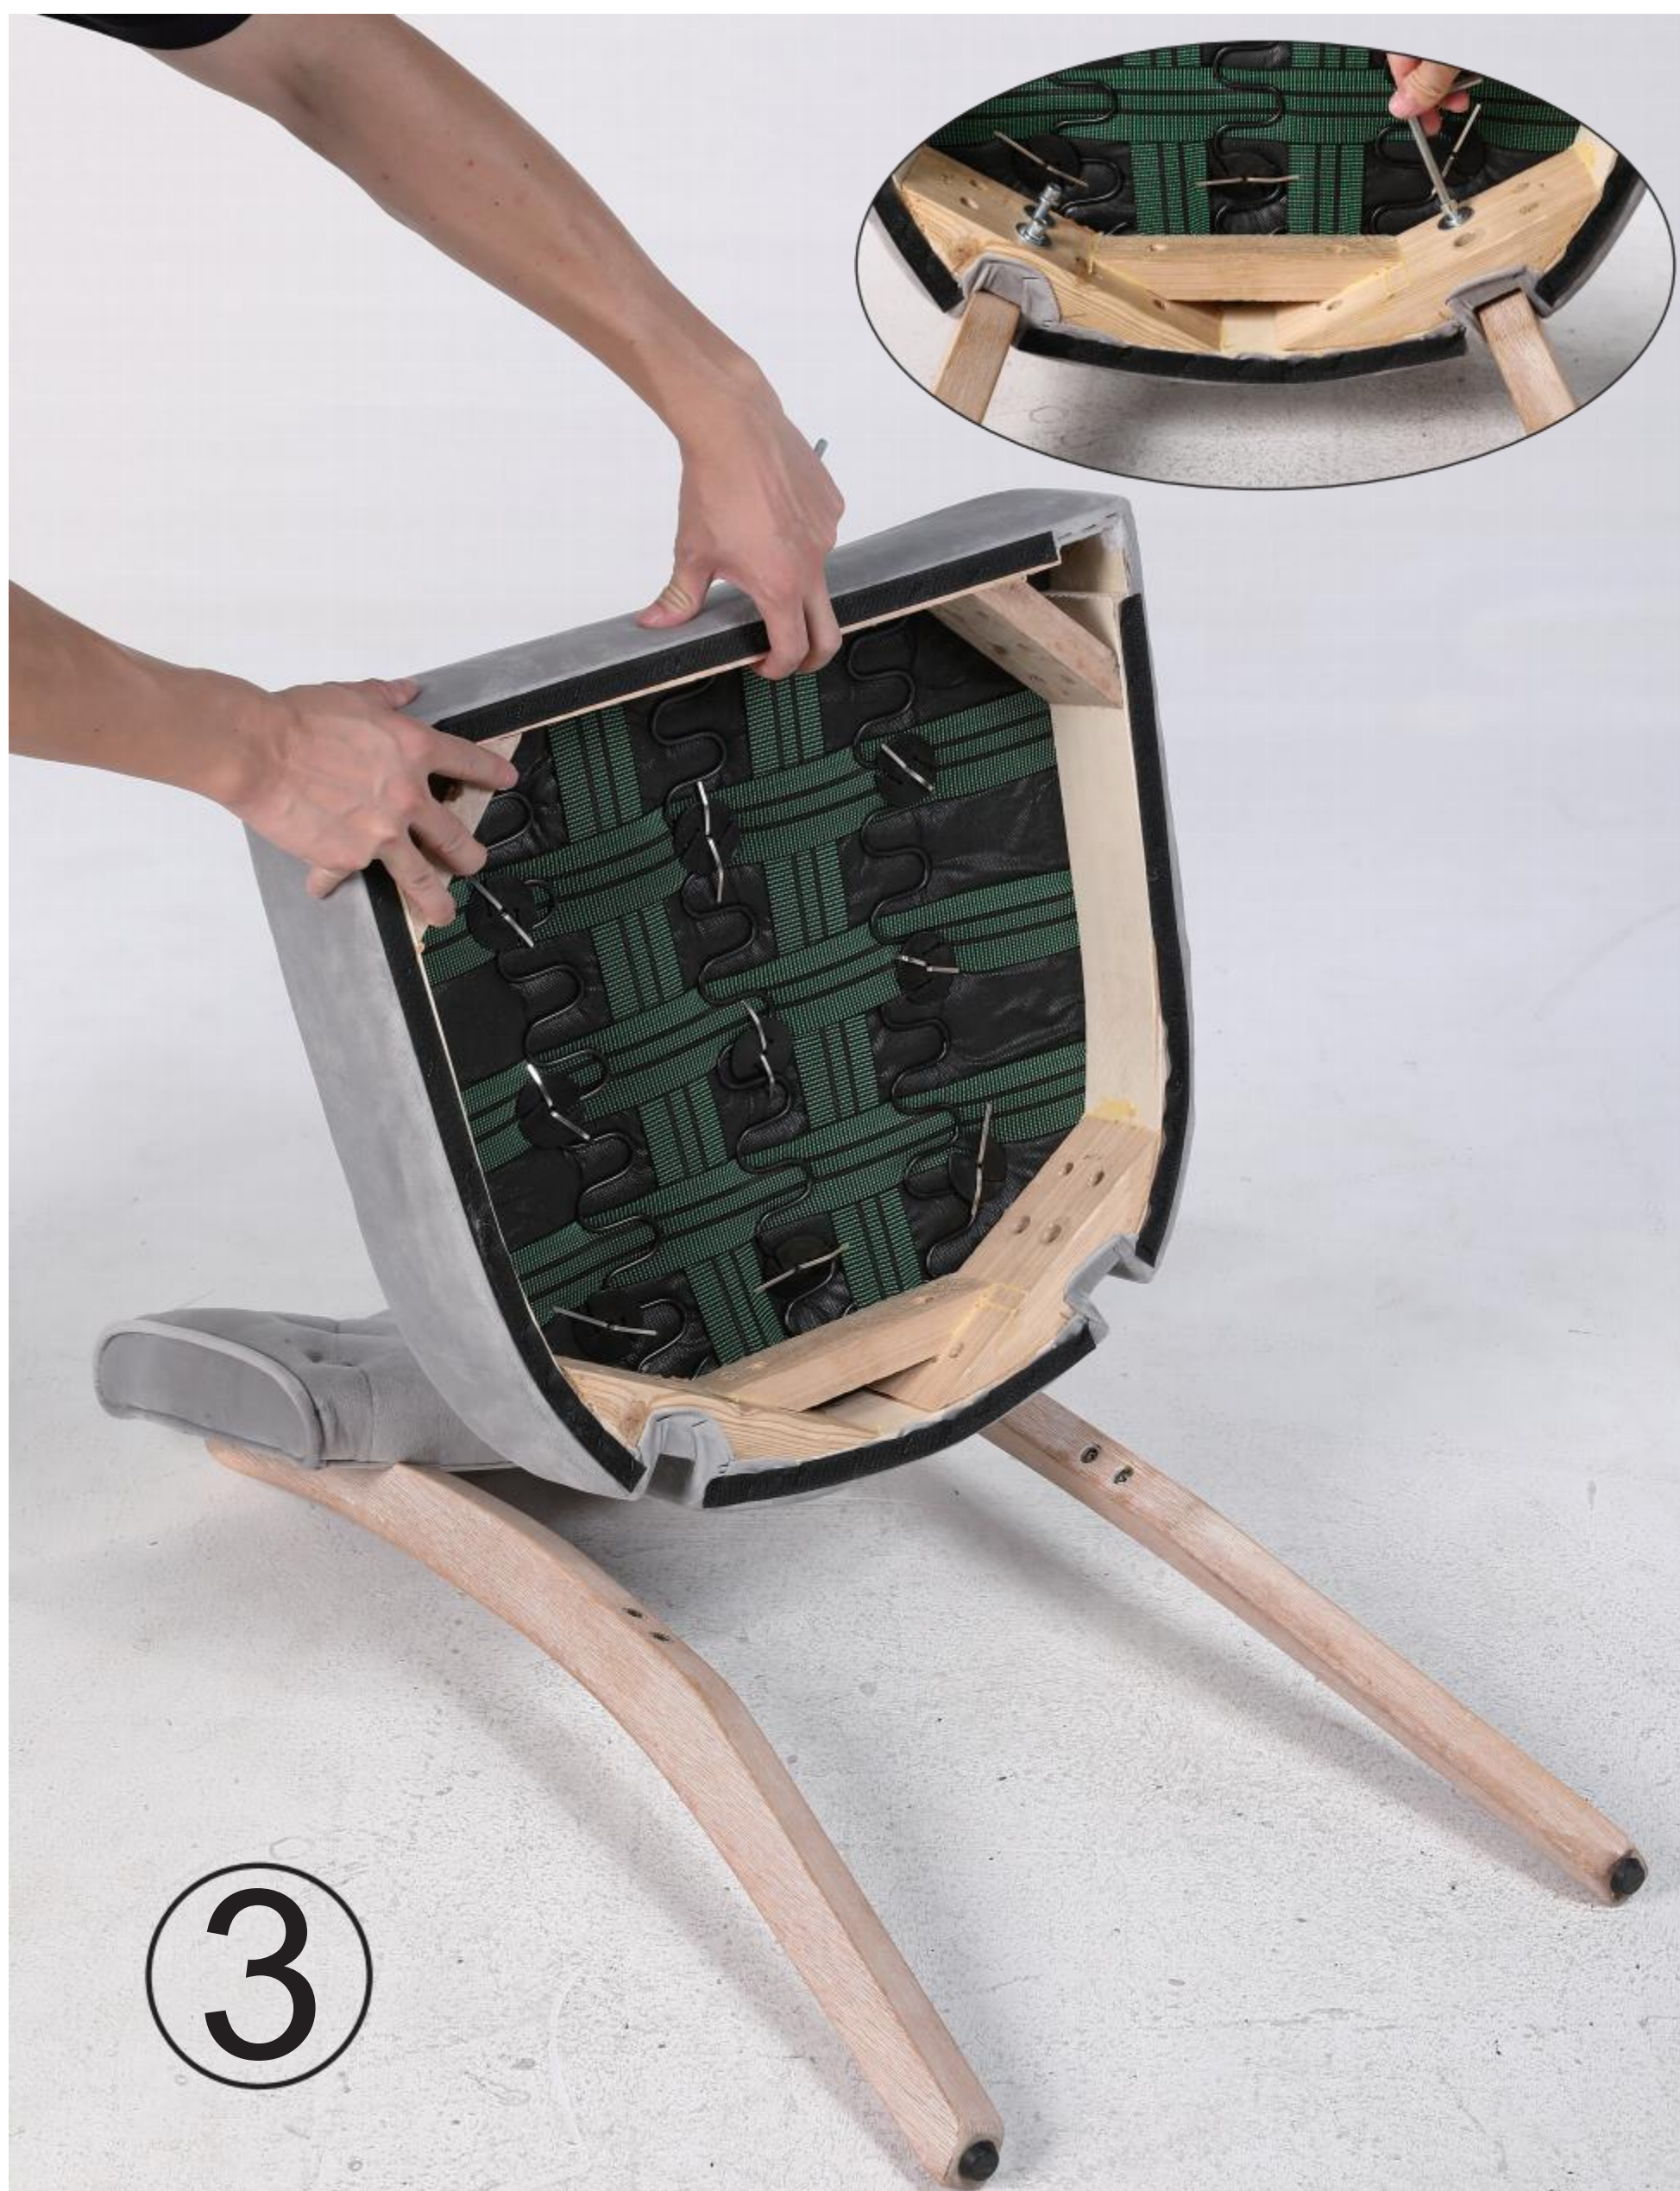

Necessary tools

Use the screws(D) insert to L leg and R leg, and connect the backrest.
Tighten all the screws to 60% of maximum tightness.

Attention: Must left leg is L, right leg is R.

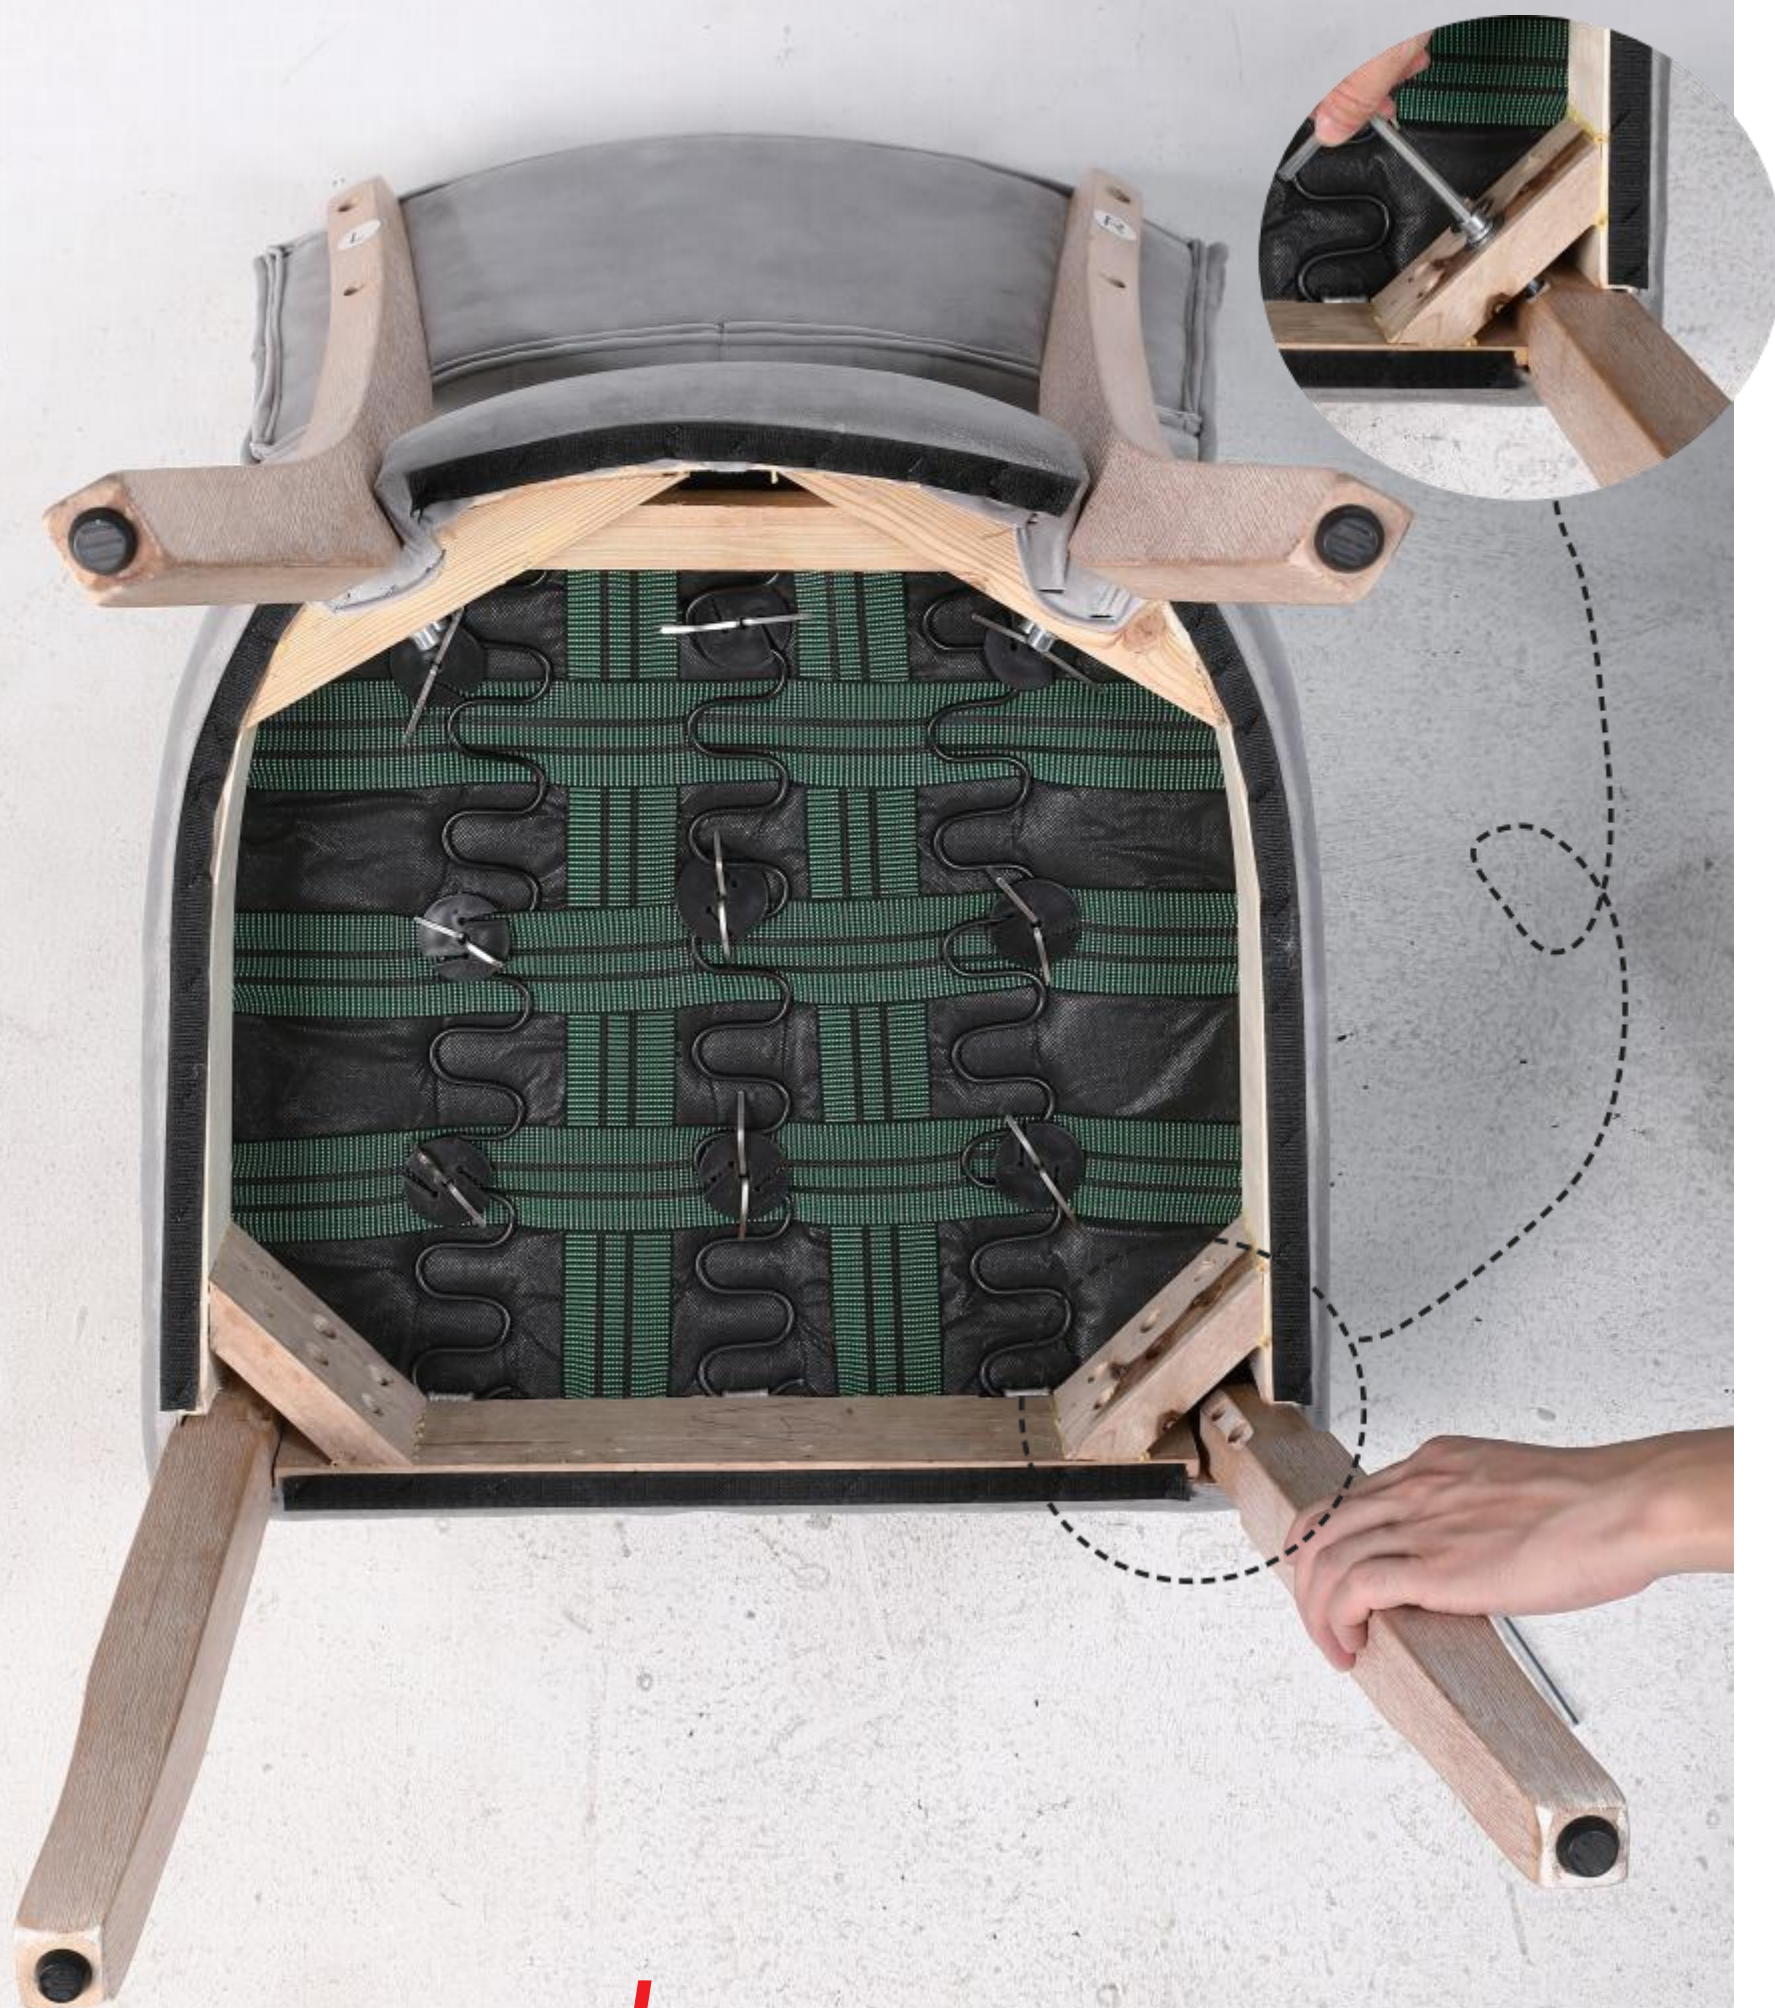

3

Put the seat on the back legs,
uses the 4 screws(E) connect the seat and back legs.
Tighten all the screws to 100% of the maximum tightness.

Put the front legs in the holes,
use the 4 screws(E) connect the seat with front legs.
Tighten all the screws to 100% of maximum tightness.

**Attention: If you put it in the wrong place, it still can work,
but the uneven force will cause the leg to break.**

4

There are 4 small adjusters on the legs ensure these are adjusted to the chair sits level.

5

Seal the holes with a fitting lid
