1 Installation Guidelines

1. When opening the package, refer to the "Package Contents" and ensure all parts are present.
2. Make sure the basin you purchase matches the size of the mixer (faucet).
3. Do not disassemble the mixer body yourself.
4. Connect the inlet hoses to the supply stopper: the left hose to the hot water supply, and the right hose to the cold water supply.
5. Before installation, ensure:

The inlet pipes and supply stopper are installed and clean.

There are no impurities in the pipeline.
6. After finishing the installation, check all joints and connections for leaks.
7. The water pressure should be between 0.05 MPa and 0.75 MPa, including cold water pressure.

Kind Tips:

It is recommended to install the faucet after the house has been properly cleaned.
Suggestion: If the faucet is located in a highly corrosive environment, clean the faucet surface frequently to maintain its lifespan.

Recommended tools:

•Water sealant

•Allen key

•Flat screwdriver
•Cross screwdriver

2 Included Items

NO.	Part name	Quantity
1	horizontal pipe	1
2	M5 screw	2
3	screw accessory kit	1
4	standpipe	1
5	eccentric nipple	2
6	top shower	1
7	hand shower	1
8	hose	1
9	adjustable shower holder	1
10	hexagonal spoon tool	2
11	body	1

		
4 After drilling holes at the marked positions, insert the expansion bolts, and then insert the vertical pipe into the adjustable shower holder. Fix the long shower pipe with two self-tapping screws, and tighten the screws at the bottom of the vertical shower pipe.	5 Insert the horizontal pipe connector into the straight pipe, and lock the two pipes with two screws.	6 Install the hand shower hose, hand shower, and the overhead shower.

6 User Guide

 Independent handwheel temperature adjustment, three water distribution switches independently controlled.	 The product's temperature display and atmosphere lamp are powered by a lithium battery. When the temperature display and atmosphere lamp flash, it needs to be charged. Simply use a power bank to insert the Type-C charging port at the bottom of the body. When charging, the atmosphere lamp will light up, and the lamp will go out when it is fully charged.

7 Mixer Care and Maintenance Tips

a. Regular Cleaning:

For daily or regular cleaning, simply wash the mixer with clean water and wipe it dry with a soft cotton cloth.

Avoid using cleaning powder, polishing powder, abrasive detergents, or nylon brushes, as these can scratch and damage the surface.

Do not use acidic cleaning agents. If the mixer comes into contact with any harmful acids, rinse it immediately with clean water.

b. Deep Cleaning:

For deeper cleaning:

First, remove as much dirt and grime as possible with clean water and a soft cloth. Then, use one of the following cleaning agents:

- Mild liquid cleanser
- Colorless glass cleaner with no abrasives (ensure it completely dissolves according to instructions)
- Non-abrasive polish liquid

After cleaning, thoroughly rinse off all cleaning agent with clean water and wipe dry with a soft cotton cloth.
