

Product Specification

Our products are made from PU Rattan, hand woven onto fully aluminium welded frames. Therefore, all the furniture can be left outside, all year round. It is UV protected to ensure they do not fade in sunlight, resulting in years of enjoyment. This set is made from a half-rounded weave.

Our Rattan will contract and expand based on the current weather conditions. In warm weather, it will expand and the contract back to its original state once the temperature becomes cooler. It is a completely normal trait for rattan garden furniture and will result in stopping the weave from snapping.

Cushions are not waterproof and should be stored away, in a dry location when not in use. The covers may be machine washed, but only on a low temperature, around 30 c. We strongly recommend that they are not dried on a radiator or tumble dryer. This will cause the covers to shrink.

Table glass is 8mm Tempered Glass.

We recommend cleaning your furniture at least once a year. Brush the furniture down to remove leaves and debris. Use warm soapy water and a soft cloth to wipe dirt away, then rinse the furniture over.

Our furniture is fully assembled except for our dining tables, parasol and storage boxes.

Cleaning Kits are available to purchase separately, our kits are Vegan approved
