Installation & Assembly

General Guidelines

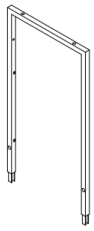

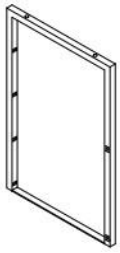

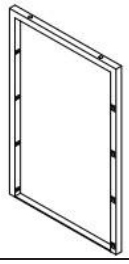

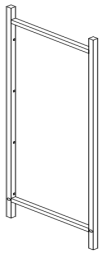

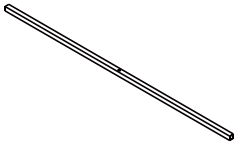

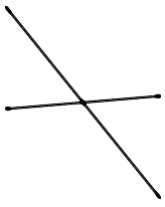

•Please read the following instructions carefully and use the product accordingly .
•Keep this manual and provide it to any future owner if you transfer the product.
•This summary may not include every detail for all variations and assembly steps. Please contact us for additional information or assistance if needed.

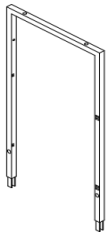

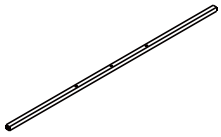

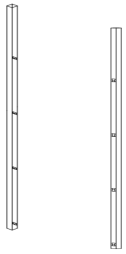

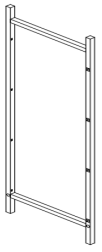

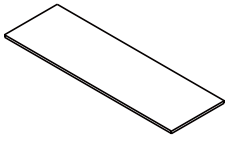

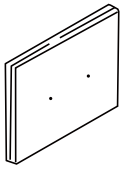

Notes

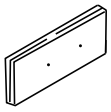

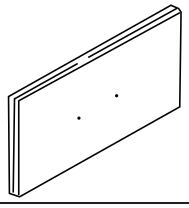

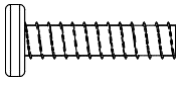

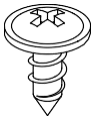

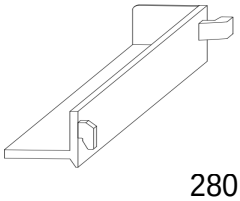

•This product is intended for indoor use only. It must be assembled and used strictly according to the instructions in this manual.
•Do not use the product for unintended purposes or modify it from its original design. Improper use or modifications may lead to injury or damage. The seller assumes no responsibility for any injury or damage caused by incorrect assembly or misuse.
•Avoid long-term exposure to humid environments to prevent mildew.
•Keep the product away from fire sources and high temperatures. Do not expose it to direct sunlight.
•Do not place hot objects directly on the surface of the product.
•If you find any missing or defective parts after unpacking, stop assembly immediately and contact us.
•Assemble the product on a spacious surface. Do not place unwrapped components directly on the ground, as this may cause damage.
•Do not stand or sit on the wooden panels.
•Wear gloves during assembly and disassembly to avoid scratches from sharp edges.
•Match each part and fitting with the part number listed in the manual.
•If a part does not seem to match, double-check the specifications in the manual.
•During assembly, first loosely insert all screws into the pre-drilled holes, then gradually tighten them one by one.
•Periodically inspect the tightness of screws during use. Retighten if necessary to maintain structural integrity.
•If liquids are spilled on the product, wipe it dry immediately with a clean towel.
•Keep the product away from sharp or pointed objects and corrosive substances to avoid damage.
•Place the product on flat and solid ground during use.

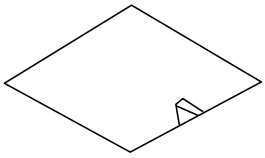

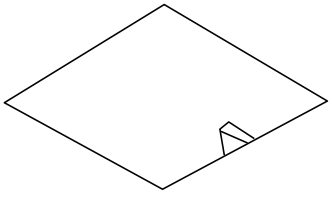

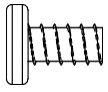

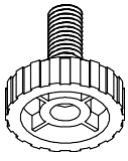

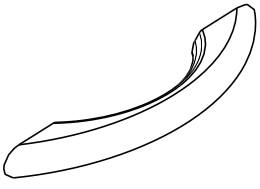

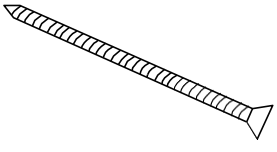

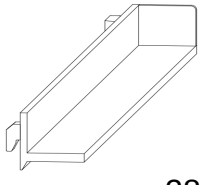

Warnings

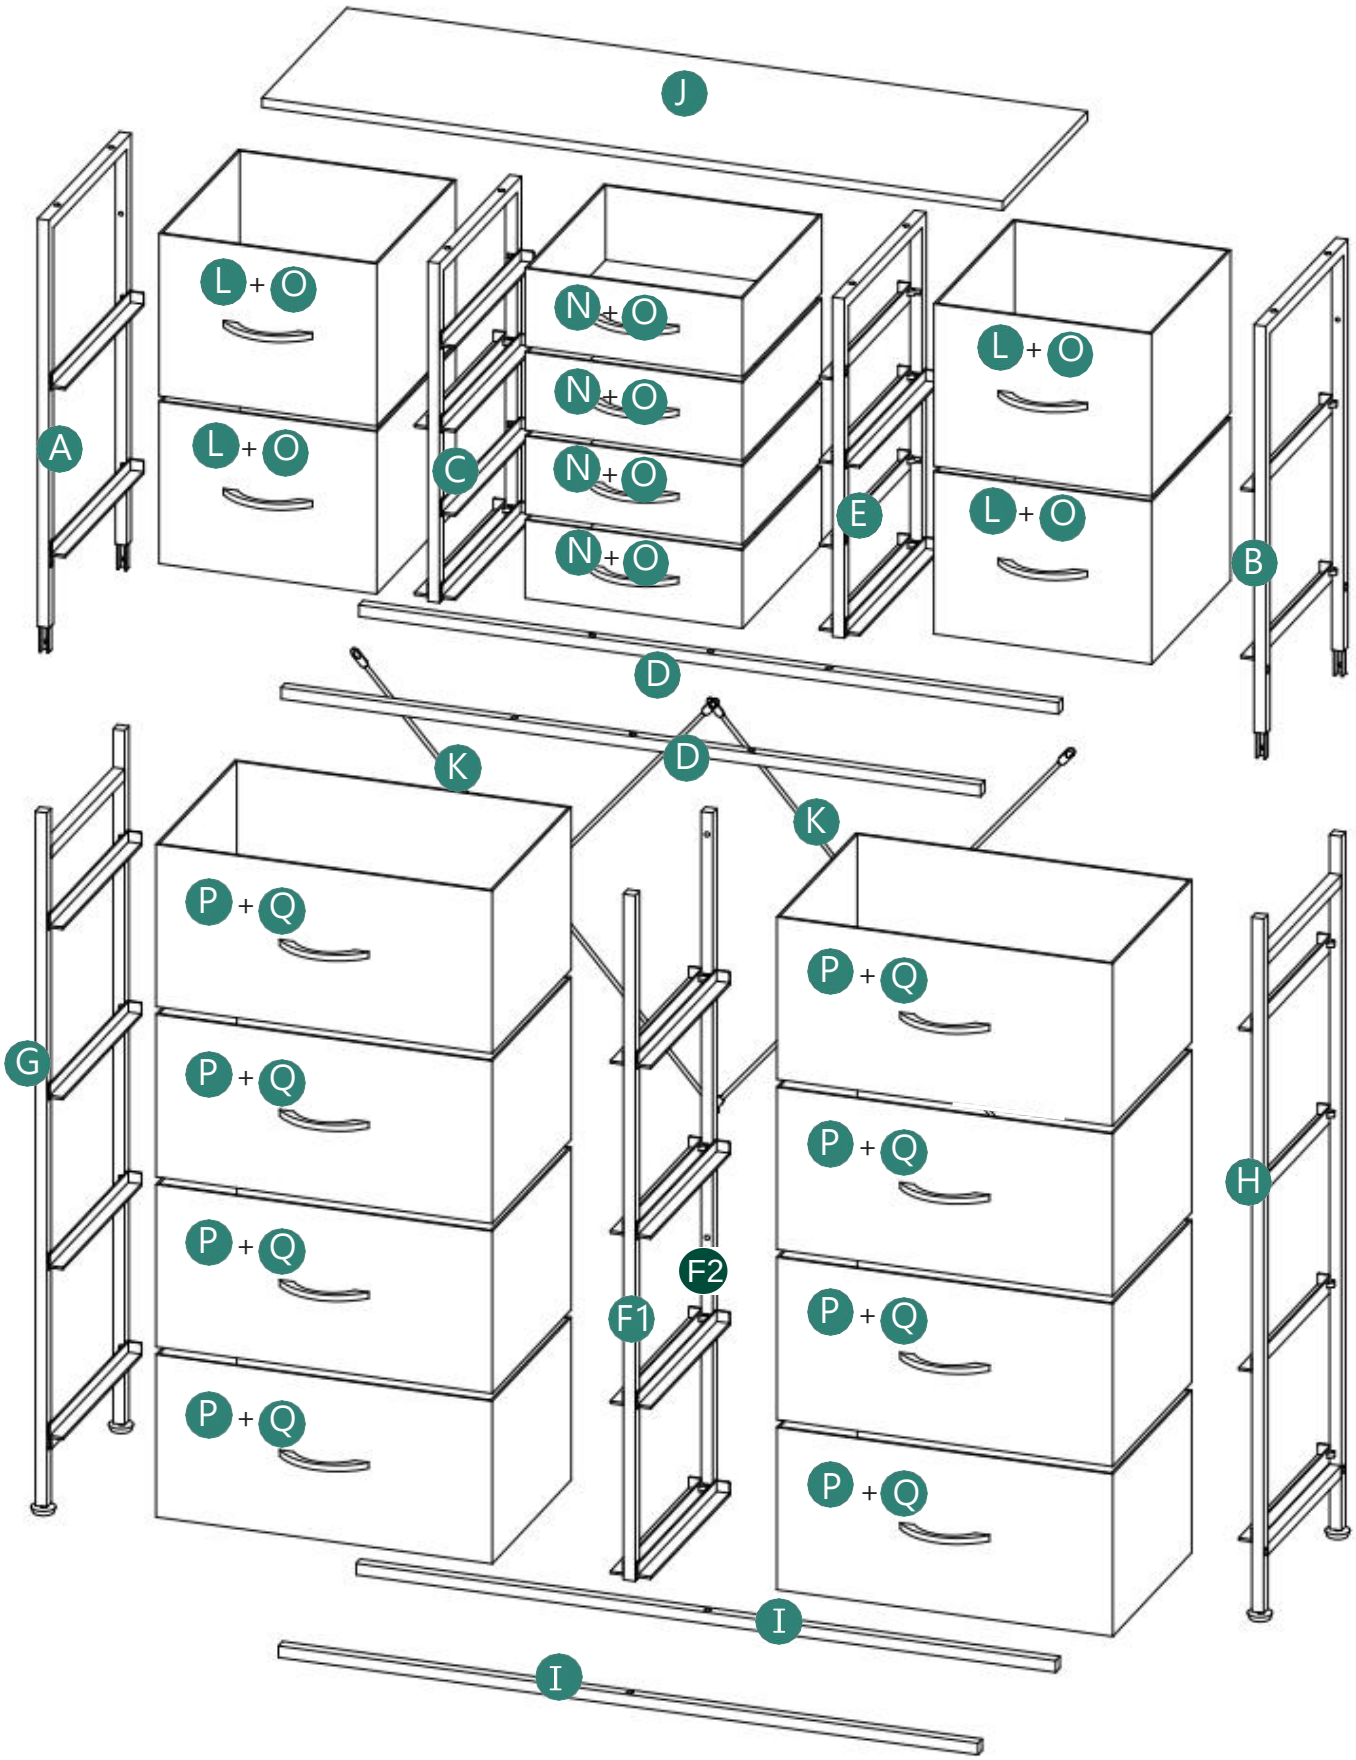

•Keep children away during assembly. Small parts included in the package may pose a choking hazard if swallowed or inhaled.
•Children must not climb or stand on the product to avoid injury from tipping.
•To prevent suffocation, keep all packaging materials (such as film, plastic bags, foam, etc.) away from infants and children.
•The maximum static load capacity of each shelf is 5kg (11lbs). Do not overload the shelves.
•Always use the included anti-tipping kits to secure the product to the wall and prevent accidental tipping that could result in injury.
