

Premium Platform Bed Base Instructions

Use with all sizes: Twin, Twin XL, Full, Full XL, Queen, King, and California King

Parts included:

(1) Base (for Twin and Twin XL)

(2) Bases (for all other sizes)

- 1 Remove all pieces from the carton and place them flat on the floor. There is only one piece for Twin and Twin XL sizes. Full, Full XL, Queen, King, and California King sizes all have two pieces.

- 2 Unfold each piece so that the top of the base is against the floor and the legs are facing up. Unfold the legs to the upright position.

- 3 Rotate the leg support arms to align with the screw and wing nut. Slide the notch on the leg support arm under the wing nut. Tighten the wing nuts.

- 4 Turn the base(s) over. For Full, Full XL, Queen, King, and California King sizes, align the square corners on each piece.

- 5 Secure the two pieces by locking the head of the stud into the slot on the opposite base.

- 6 Your base is now ready to use.
