FEATURES:

Mythology has some knotty tales, the one Theseus inhabited a circuitous one. Thankfully he was loved by an immortal who helped him escape the labyrinth, a woman just as clever as our namesake Ariadne Rectangular wall sconce with its looping knots and sexy swagger. The body of the fixture is made of wrought iron that has been treated to a contemporary gold leaf finish. The inset shade that softens the light source is made of off-white shantung. This sconce, which measures 6 1/2" wide by 5.3" deep by 18" tall, joins a number of pieces in our Ariadne offerings.
