

1. Insert the lamp arm into the side hole of the lamp
2. Fix the lamp arm to the lamp holder with nut gasket
3. Connect the lamp cap wires of the same color with those of the main line with the same color
4. Close the cover 5; tighten the flat nut
- 6-8; pass the main line through the suspender and connect the lamp body (the length of the suspender can be selected according to the height of the ceiling, with 1.2.3)
9. Pass the ceiling plate through the main line and install it on the boom
10. Fix the hanging plate to the junction box with the screws on the accessory package
11. Connect the main line on the ceiling panel with the wire reserved on the ceiling with the wiring cap
12. Cover the whole lamp to the hanging plate (let the hanging plate screw expose the ceiling plate)
13. Twist the flower nut onto the exposed hanging plate screw
14. Put the glass lamp cover on the lamp holder
15. Twist the lamp cap ring to the lamp holder to fix the glass lamp cover
16. Twist the bulb to the cap

#### Attention:

1. Please cut off the power supply before installation to prevent electric shock (installation by certified electrician is recommended)
2. Due to the different display, the actual color can be different from the image
3. Due to the manual measurement of lamp body size, there may be a deviation of 1 / 2 inch
4. If you have any questions or lost parts, please feel free to contact us and we will try our best to help you
