How to fluff up the cushion after UNP acking?

1. Take the mat apart following our labeled cut line there.
2. Pat the mat firmly, you can use a hanging iron to iron the creases on the mat.
3. Leave the mat for 48 hours, it will become thicker and fluffy, due to the large size of the package ,so we are vacuum packed to send to you, so we need your help to re-store the mat,thank you for your understanding.
