Peaceful Night 1

D2796S55918-4737

Peaceful Night 1 is an example of abstract landscape art reminiscent of Joan Mitchell, the renowned American "second generation" Abstract Expressionist painter and printmaker. This work on canvas presents a fusion of traditional landscape imagery together with the aesthetics of abstract art. Here, intense hues, bold brushwork, and dripping techniques convey a unique interpretation of the natural world. The multi-toned color scheme in midnight blue, pale turquoise, slate, and denim is offset by splashes of vanilla and alabaster that pull the viewer into the landscape scene. An abstract depiction of a dreamy landscape unfolds beautifully in Peaceful Night 1. Part of the carefully curated ART by TA collection.
