1. **Read all instructions.**
2. **UNPLUG FROM OUTLET WHEN NOT IN USE AND BEFORE CLEANING. Allow to cool before cleaning or handling.**
3. Do not touch hot surfaces. Use handles or knobs.
4. To protect against electrical shock, do not place any part of the toaster oven broiler in water or other liquids. See instructions for cleaning on page 6.

5. Close supervision is necessary when any appliance is used by or near children.
6. Do not operate any appliance with a damaged cord or plug or after the appliance has malfunctioned or has been dropped or damaged in any way or is not operating properly. Return the toaster oven broiler to the nearest Cuisinart Repair Center for examination, repair or mechanical or electrical adjustment.
7. The use of accessory attachments not recommended by Cuisinart® may cause injury.
8. Do not use outdoors.
9. Do not let cord hang over the edge of the table or countertop where it could be pulled on inadvertently by children or pets, or touch hot surfaces, which could damage the cord.
10. Do not place toaster oven broiler on or near a hot gas or electric burner or in a heated oven.
11. Do not use this toaster oven broiler for anything other than its intended purpose.
12. Extreme caution should be exercised when using containers constructed of materials other than metal or glass in the toaster oven broiler.
13. To avoid burns, use extreme caution when removing tray or disposing of hot grease.
14. **When not in use, always unplug the unit.** Do not store any materials other than manufacturer's recommended accessories in this oven.
15. Do not place any of the following materials in the oven: paper, cardboard, plastic and similar products.
16. Do not cover crumb tray or any part of the oven with metal foil. This will cause overheating of the oven.
17. Oversize foods, metal foil packages and utensils must not be inserted in the toaster oven broiler, as they may involve a risk of fire or electric shock.

- 
18. A fire may occur if the toaster oven broiler is covered or touching flammable materials such as curtains, draperies, and walls, when in operation. Do not store any items on top of the appliance when in operation. Do not operate under wall cabinets.
  19. Do not clean with metal scouring pads. Pieces can break off the pad and touch electrical parts, involving a risk of electric shock.
  20. Do not attempt to dislodge food when the toaster oven broiler is plugged into electrical outlet.
  21. Warning: To avoid possibility of fire, NEVER leave toaster oven broiler unattended during use.
  22. Do not rest cooking utensils or baking dishes on glass door.
  23. Turn the function dial to the OFF position to turn off toaster oven broiler.

  25. Do not operate your appliance in an appliance garage or under a wall cabinet. **When storing in an appliance garage always unplug the unit from the electrical outlet.** Not doing so could create a risk of fire, especially if the appliance touches the walls of the garage or the door touches the unit as it closes.

## SPECIAL CORDSET INSTRUCTIONS

A short power supply cord is provided to reduce the risks resulting from becoming entangled in or tripping over a longer cord.

Extension cords may be used if care is exercised in their use.

If an extension cord is used, the marked electrical rating of the extension cord must be at least as great as the electrical rating of the appliance, and the longer cord should be arranged so that it will not drape over the countertop or tabletop where it can be tripped over or pulled on by children.

## NOTICE

This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

Place your oven on a flat surface. Remove any packaging and promotional labels in or on the oven. Unwind the power cord. Check that the crumb tray is in place and that there is nothing inside or on top of the oven. Plug power cord into wall outlet.

Before first use, thoroughly wash the baking pan, broiling rack and oven rack with soap and water, and dry them thoroughly.

Before using your oven, make sure it is two to four inches away from the wall or from any objects on the countertop. Do not use on heat-sensitive surfaces. **DO NOT STORE OBJECTS ON THE TOP OF THE OVEN. IF YOU DO, REMOVE ALL OBJECTS BEFORE YOU TURN ON YOUR OVEN. THE EXTERIOR WALLS GET VERY HOT WHEN IN USE. KEEP OUT OF REACH OF CHILDREN.**

## GENERAL GUIDELINES

**Toast/Bagel:** Always have the rack in rack position C, as indicated in the diagram on page 6, for even toasting. Always center your item/items in the middle of the rack.

**Bake:** Baking function can be used as you would normally use your large kitchen oven for roasting meats including chicken, or baking cakes, cookies and more.

**Broil:** Broiling function can be used for beef, chicken, pork, fish and more. It also can be used to top brown casseroles and gratins. **Caution:** Aluminum foil is not recommended for covering the drip pan. Foil is extremely dangerous when broiling fatty foods. Grease will accumulate and may catch fire. If foil is used to cover drip pan, be sure foil is tucked neatly around the pan and does not touch the walls or heating rods. **Never cover the crumb tray.**

**Turning off the toaster oven broiler:** Turn the function dial to OFF. The indicator light will turn off.

## OPERATION

### Toast:

To toast, make sure the oven rack is in rack position C, as indicated in the diagram on page 6. If toasting two items, center them in the middle of the rack. Four items should be evenly spaced – two in front, two in back. Six items should be evenly spaced – three in front, three in back. Close the glass door. Set function dial to TOAST.

### Shade Selection:

Turn toast shade dial to desired browning setting. Press Start/Stop button to begin toasting.

### Stop Toasting:

When the toasting cycle is finished, the oven will beep 5 times and turn off. If you wish to stop the toasting cycle before it is finished, simply press the Start/Stop button. The toaster oven broiler will cancel your toast cycle.

### Bagel:

To toast a bagel, make sure the oven rack is in rack position C as indicated in the diagram on page 6. If toasting two items, center them in the middle of the rack. Four items should be evenly spaced – two in front, two in back. Six items should be evenly spaced – three in front, three in back. Close the glass door. Set function dial to BAGEL.

### Shade Selection:

Turn toast shade dial to desired browning setting. Press Start/Stop button to begin toasting.

### Stop Toasting:

When the toasting cycle is finished, the oven will beep 5 times and turn off. If you wish to stop the toasting cycle before it is finished, simply press the Start/Stop button. The toaster oven broiler will cancel your toast cycle.

### Bake:

To bake, turn the temperature dial to the desired temperature and turn function dial to BAKE. The oven indicator light will turn on. Allow the oven to preheat for at least five minutes before putting food in the oven to bake.

### Warm:

Turn the temperature dial to Warm and then turn the function dial to Warm. The oven indicator light will turn on.

### **Broil:**

To broil, turn the temperature dial to BROIL and turn function dial to BROIL. The oven indicator light will turn on. Allow the oven to preheat for at least five minutes before putting food in the oven to broil.

**Note:** When broiling place the broiling rack in the drip pan. In most cases the oven rack should be in the higher position (position C, but for thicker items use position B; see diagram on this page).

**Note:** Never use glass oven dishes to broil. To stop broil operation, turn function dial to OFF position.

## **CLEANING AND MAINTENANCE**

Always allow the oven to cool completely before cleaning.

1. Always unplug the oven from the electrical outlet.
2. Do not use abrasive cleansers, as they will damage the finish. Simply wipe the exterior with a clean damp cloth and dry thoroughly. Apply the cleansing agent to a cloth, not to the toaster oven, before cleaning.
3. To clean interior walls, use a damp cloth and a mild liquid soap solution or a spray solution on a sponge. Never use harsh abrasives or corrosive products. These could damage the oven surface. Never use Brillo pads, etc. on interior of oven.
4. To remove crumbs, slide out the crumb tray and discard crumbs. Wipe clean and replace. To remove baked-on grease, soak the tray in hot sudsy water or use nonabrasive cleaners. **Never operate the oven without the crumb tray in place.**
5. Wire rack, baking pan and crumb tray should be hand washed in hot sudsy water or use a nylon scouring pad or nylon brush.
6. Never wrap the cord around the outside of the oven. Use the cord storage cleats on the back of the oven.
7. Any other servicing should be performed by an authorized service representative.

### **IMPORTANT:**

After cooking greasy foods and after your oven has cooled, always clean top interior of oven. If this is done on a regular basis, your oven will perform like

new. Removing the grease will help to keep toasting consistent, cycle after cycle.

**1**                    **1**  
teaspoon pure vanilla extract  
cup plain yogurt (you may use vanilla yogurt, but halve the amount  
of vanilla extract in the recipe if you choose to use it in place of  
the plain yogurt)

1. Preheat the toaster oven to 350°F on the Bake setting with the rack in position  
A.

2. Butter a 9-inch round cake pan, and then cut a circle out of parchment paper  
to fit in the bottom of the pan; reserve.

3. Sift the flour, baking powder, salt and sugar into a large mixing bowl. Add the  
butter. Using a hand mixer fitted with the beater attachments, mix until the  
butter is well incorporated into the dry ingredients, giving the mixture the look  
of wet sand. This will take 1 to 2 minutes.

4. In a small bowl or large liquid measuring cup, mix the remaining wet  
ingredients together. Gradually add the wet mixture to the dry/butter mixture  
and beat until combined – be sure to not over-mix.

5. Transfer the thick batter to the prepared cake pan. Bake for 25 to 30 minutes,  
or until a cake tester comes out just clean.

6. Let pan rest on a cooling rack for 15 minutes. Remove cake from pan, but let  
it cool completely before frosting.

**Note:** The cake can be used as one thick layer, but it is most impressive when  
halved. To do so, use a serrated knife and evenly and carefully slice in half,  
horizontally, through the center.

## Roasted Garlic and Onion Pizza

This pizza has both salty and sweet flavors.

You can also add some sliced chorizo or sausage to spice it up.

Makes one 10 x 9-inch square pizza (six servings)

1/3 recipe pizza dough (page 10)

6 garlic cloves

1 medium onion, sliced

1 tablespoon olive oil, divided

pinch kosher or sea salt

pinch freshly ground black pepper

nonstick cooking spray

3/4 cup hearty pizza sauce, strained

6 ounces fresh mozzarella, cubed

1. Preheat the toaster oven to 450°F on the Bake setting with the rack in position A.

2. Line the baking pan with aluminum foil. Put the garlic and onion onto the pan and toss with half of the olive oil and the salt and pepper. Roast in the preheated oven for about 20 minutes, or until the garlic and onion are softened and golden. Remove and reserve; discard the foil. Reduce the temperature to 400°F.

3. Lightly coat the baking pan with the nonstick cooking spray. Roll out dough into a 10 x 9-inch rectangle. Fit into the prepared pan. Brush the outer edge of the dough with olive oil.\* Spread the sauce on the dough, and then top with the cheese and then the roasted vegetables. Bake in the preheated oven for about 8 to 10 minutes, or until the cheese is bubbling and the edges of the crust are golden.

4. Let pizza cool slightly, then slice and serve.

\*If a crispier crust is desired, par-bake the dough for about 8 to 10 minutes before topping with the other ingredients.

6. Transfer mixture to the prepared pan and then top with the remaining cheeses and breadcrumbs.
7. Bake for 20 minutes, or vegetables are tender and cheeses are browned. Serve immediately.

## Pizza Dough

This dough freezes very well.

**2¼ teaspoons active dry yeast**

**1 teaspoon granulated sugar**

**½ cup warm (105° to 110°F) water**

**4 cups unbleached, all-purpose flour, plus more for dusting**

**1½ teaspoons kosher or sea salt, divided**

4. Lightly dust a sealable plastic bag with flour. Dust dough with flour. Place the dough into the floured bag; squeeze out all of the air and seal. Let rise in a warm place for 45 minutes to 1 hour.

## Twice Baked Potatoes

During the holidays and other dinner parties, oven space and time can be scarce. This delicious side dish frees up your main oven for larger items like a turkey or roast.

Makes eight servings

**4 Idaho or russet potatoes (10 to 12 ounces each)**

**1 teaspoon olive oil, divided**

**¾ cup lowfat milk**

**2 tablespoons unsalted butter, plus 1 teaspoon for finishing**

**½ cup sour cream**

**½ teaspoon kosher or sea salt**

**½ teaspoon freshly ground black pepper**

**¼ cup chopped fresh chives**

1. Preheat the toaster oven to 400°F on the Bake setting with the rack in position B.

2. Rub each potato with ¼ teaspoon of olive oil, and then evenly prick about 6 to 8 times with a fork. Place potatoes directly on the rack and bake for about 55 to 60 minutes. Remove and let cool slightly. Reduce oven temperature to 375°F.

3. When potatoes are cool enough to handle, halve each one and scoop out cooked potato, leaving a ¼-inch thick potato shell. Reserve cooked potato and skin shells.

4. Place cooked potato in a medium bowl. Add milk and 2 tablespoons of the butter. Using a potato masher or hand mixer, mash/beat until smooth. Add sour cream, salt, pepper and chives. Mash/beat to combine completely. Generously fill the potato shells with potato mixture. (Potatoes may be prepared a day ahead to this point – cover and refrigerate. Bring to room temperature before baking.)

5. Line the baking pan with aluminum foil. Arrange potatoes on prepared pan. Melt remaining teaspoon of butter and drizzle on potatoes. Bake for 35 to 45 minutes, until potatoes are hot and golden on the tops.
