

Selecting the Correct Light Bulb

- Maximum Wattage: 60W
- Light Bulb Type: E27 (Edison Screw) GLS Bulb
- Do not exceed the maximum wattage of the light bulb. This may cause your light fitting to overheat

If the supply cord is damaged, it cannot be replaced, and the lamp must be scrapped.

Do not exceed the maximum wattage or use a different shape of light bulb. This may cause permanent damage to your light fitting. Always switch off and allow to cool before changing bulbs. Use a soft cloth to handle bulbs, avoid directly touching the bulbs as this will shorten their life.

Cleaning Care:

Finish – We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will rub away the protective coating.

Always switch off and allow the bulb to cool before replacing the bulb.

Talisman Floor Lamp

Thank you for purchasing this floor lamp. Please read through the instructions and warnings carefully before use to ensure safe and satisfactory operation of this product.

Please keep these instructions for future use.

Contents:

1 x Floor Lamp comprising of:
