

1. Secure the two separated parts of the lampshade with screws.

2. Pass the lamp wires through the extension rod, then screw the extension rod into the lamp socket holder.

3-5. Continue passing the lamp wires then tighten up other extension rods (We are offering 3 extension rods, you can choose the ideal hanging height and quantity of extension rods according to your ceiling.)

6-7. Then keep passing the lamp wires through the ceiling adapter and canopy, screw the ceiling adapter into the extension rod.

8. Use nut gasket to fix canopy and ceiling adapter. Secure the bracket onto the anchors by the screw bolts.

9-10. Connect wires by the screw nut accordingly, White Wire connect to "N" Wire, Black Wire to "L" Wire, the Bare Copper wire is to the Ground Wire. (Wires' color are same with the junction box wires.)

11-12. Assemble the whole light fixture with the light base by tightening the screw washer, then finally screw up light bulbs and complete.

Attention:

1. Please cut off the power supply before installation to prevent electric shock (installation by certified electrician is recommended)

2. Due to the different display, the actual color can be different from the image

3. Due to the manual measurement of lamp body size, there may be a deviation of 1 / 2 inch

4. If you have any questions or lost parts, please feel free to contact us and we will try our best to help you
